Common definitions and notes

Notes on data sources

All the data in the statistical tables of each country have been reported by the relevant national insurance authorities. Regarding comparative tables of indicators, the data are mainly drawn from the tables by country. The economic data on exchange rates, population and GDP are taken from the OECD publication *Main Economic Indicators*.

To achieve greater clarity, the number of variables selected and displayed in this publication has been limited. Data have been extracted from the Global Insurance Statistics Database. *The complete database can be accessed online at the following link:*

***OECD Insurance Statistics*, *http://dx.doi.org/10.1787/ins-data-en*.**

A significant effort has been made to achieve comparability among countries. Definitions, classifications, calculation methods, and units have been standardised as far as possible.

General notes

a) Life and non life categories follow the definitions used in national law. However, the premiums for accident and sickness insurance underwritten by life companies should be included in non life figures.

b) Up until 2008, the insurance business is broken down between life and non-life business. As of 2009, the insurance business is broken down between the business of pure life, pure non-life and composite undertakings and composite undertakings' business is further broken down between life and non-life business. Some countries do not allow for insurance undertakings to be active in both life and non-life insurance business and therefore composite insurance undertakings do not exist in these countries. In other countries (e.g., Austria, Belgium, Hungary, Italy, Mexico, Portugal, Spain) however, the share of employment in composite insurance undertakings accounts for more than half of the whole domestic insurance sector. Therefore, to have comparable data across years for life business data (respectively non-life), one has to sum up the life (respectively non-life) business of pure life (respectively non-life) undertakings and the life (respectively non-life) business of composite undertakings as of 2009.

c) Figures provided for the number of companies and for insurance premiums should include all insurance companies licensed or authorised in the reporting country, *including* professional reinsurers, whether or not these are controlled, but *excluding* any statutory system of social security administered by the State.

d) *Domestic companies* means those companies incorporated under national law, together with those companies in the reporting country which are unincorporated, but excluding the branches and agencies of foreign companies.

e) *Foreign controlled companies* means those domestic companies controlled by foreign interests, such "control" being defined according to national law (see the definition of foreign controlled companies in notes by country). The data of *foreign controlled companies* are part of those of *Domestic companies*.

f) *Foreign companies* means companies incorporated outside the reporting country.

International comparisons

Detailed metadata at: *http://metalinks.oecd.org/ins/20180621/57fd*.

Country tables

In this part, the main insurance statistics are presented through separate tables for each OECD member country. Figures refer to the calendar year. The premiums and other amounts are described in millions of the national currency unit.

ORGANISATION FOR ECONOMIC CO-OPERATION AND DEVELOPMENT

The OECD is a unique forum where governments work together to address the economic, social and environmental challenges of globalisation. The OECD is also at the forefront of efforts to understand and to help governments respond to new developments and concerns, such as corporate governance, the information economy and the challenges of an ageing population. The Organisation provides a setting where governments can compare policy experiences, seek answers to common problems, identify good practice and work to co-ordinate domestic and international policies.

The OECD member countries are: Australia, Austria, Belgium, Canada, Chile, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea, Latvia, Lithuania, Luxembourg, Mexico, the Netherlands, New Zealand, Norway, Poland, Portugal, the Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Turkey, the United Kingdom and the United States. The European Union takes part in the work of the OECD.

OECD Publishing disseminates widely the results of the Organisation's statistics gathering and research on economic, social and environmental issues, as well as the conventions, guidelines and standards agreed by its members.

AVAILABLE ON LINE

OECD Insurance Statistics

2009-2016

This annual publication shows official insurance statistics for all OECD countries including data on premiums collected, claims, and commissions by type of insurance; investments by type of investment; and numbers of companies and employees. The data, which are standardised as far as possible, are broken down under numerous sub-headings, and a series of indicators makes the characteristics of the national markets more readily comprehensible.

ALSO AVAILABLE ON LINE

The data in this publication are also available on line via ***www.oecd-ilibrary.org*** under the title *OECD Insurance Statistics* (***https://doi.org/10.1787/ins-data-en***).

Consult this publication on line at ***https://doi.org/10.1787/ins_stats-2017-en***.

This work is published on the OECD iLibrary, which gathers all OECD books, periodicals and statistical databases. Visit ***www.oecd-ilibrary.org*** for more information.
