BETTER POLICIES FOR BETTER LIVES

This work is published under the responsibility of the Secretary-General of the OECD. The opinions expressed and arguments employed herein do not necessarily reflect the official views of OECD member countries.

This document, as well as any data and map included herein, are without prejudice to the status of or sovereignty over any territory, to the delimitation of international frontiers and boundaries and to the name of any territory, city or area.

The statistical data for Israel are supplied by and under the responsibility of the relevant Israeli authorities. The use of such data by the OECD is without prejudice to the status of the Golan Heights, East Jerusalem and Israeli settlements in the West Bank under the terms of international law.

Common definitions and notes

Notes on data sources

All the data in the statistical tables of each country have been reported by the relevant national insurance authorities. Regarding comparative tables of indicators, the data are mainly drawn from the tables by country. Data on exchange rates are taken from the IMF International Financial Statistics database. Data on population are taken from the IMF publication *World Economic Outlook*. Data on GDP come from the OECD Annual National Accounts database for OECD countries and from the IMF publication *World Economic Outlook* for all the other countries.

To achieve greater clarity, the number of variables selected and displayed in this publication has been limited. Data have been extracted from the Global Insurance Statistics database. The complete database can be accessed online at the following link:

OECD Insurance Statistics, *http://dx.doi.org/10.1787/ins-data-en*.

A significant effort has been made to achieve comparability among countries. Definitions, classifications, calculation methods, and units have been standardised as far as possible.

General notes

a) Life and non-life categories follow the definitions used in national law. However, the premiums for accident and sickness insurance underwritten by life companies should be included in non-life figures.

b) Up until 2008, the insurance business is broken down between life and non-life business. As of 2009, the insurance business is broken down between the business of pure life, pure non-life and composite undertakings. The insurance business of composite undertakings is further broken down between life and non-life components. Some countries do not allow for insurance undertakings to be active in both life and non-life insurance business and therefore composite insurance undertakings do not exist in these countries. In other countries (e.g., Austria, Hungary, Mexico, Spain) however, composite insurance undertakings account for more than 25% of all insurance undertakings operating in these countries. Therefore, to have comparable data across years for life business data (respectively non-life), one has to sum up the life (respectively non-life) business of pure life (respectively non-life) undertakings and the life (respectively non-life) business of composite undertakings as of 2009.

c) Figures provided for the number of companies and for insurance premiums should include all insurance companies licensed or authorised in the reporting country, *including* professional reinsurers, whether or not these are controlled, but *excluding* any statutory system of social security administered by the State.

d) *Domestic companies* means those companies incorporated under national law, together with those companies in the reporting country which are unincorporated, but excluding the branches and agencies of foreign companies.

e) *Foreign-controlled companies* means those domestic companies controlled by foreign interests, such "control" being defined according to national law (see the definition of foreign controlled companies in notes by country). The data of *foreign-controlled companies* are part of those of *Domestic companies*.

f) *Foreign companies* means companies incorporated outside the reporting country.

In 2016, a new supervisory framework for insurance and reinsurance companies was implemented in the European Union (EU) and the European Economic Area (EEA). This framework includes harmonised reporting requirements across EU/EEA countries. These requirements led to changes in national data collection, which may hamper the data comparability with the ones collected before 2016 for some countries which only collect data with the Solvency II framework.

International Comparisons:

Detailed metadata at: *http://metalinks.oecd.org/ins/20190221/0f8b*.

Country tables

In this part, the main insurance statistics are presented through separate tables for each OECD member country. Figures refer to the calendar year. The premiums and other amounts are described in millions of the national currency unit.

AVAILABLE ON LINE

OECD Insurance Statistics

2011-2018

This annual publication shows official insurance statistics for all OECD countries including data on premiums collected, claims, and commissions by type of insurance; investments by type of investment; and numbers of companies and employees. The data, which are standardised as far as possible, are broken down under numerous sub-headings, and a series of indicators makes the characteristics of the national markets more readily comprehensible.

ALSO AVAILABLE ON LINE

The data in this publication are also available on line via ***www.oecd-ilibrary.org*** under the title *OECD Insurance Statistics* (***https://doi.org/10.1787/ins-data-en***).

Consult this publication on line at ***https://doi.org/10.1787/g2g9fade-en***.

This work is published on the OECD iLibrary, which gathers all OECD books, periodicals and statistical databases. Visit ***www.oecd-ilibrary.org*** for more information.
