Corrigendum

Page 61

Table A2.1
Changes for the G20 average:
- Col 5: change from 20 to 22
- Col 6: change from 35 to 38
- Col 8: change from 9 to 10
- Col 9: change from 58 to 63
- Col 10: change from 12 to 13
- Col 11: change from 72 to 78
- Col 12: change from 53 to 58

Page 95

Figure A5.4
Note for Poland: Year of reference is 2015

Page 123

Figure A7.4
The ordering of countries changed
The OECD average for the blue bar is 264000 instead of 239700

Page 188

Table B2.2
Col 18 EU average → “4.8” should be replaced by “4.9”
Figure B4.1

TURKEY has been added to the figure

Table B4.2

- col 9 TURKEY → “m” should be replaced by a 117.
- col 10 TURKEY → “m” should be replaced by 145.
- col 10 OECD AVERAGE → “100” should be replaced by “101”

Table B5.3

- col 1-11 Spain → Doctoral or equivalent level should be filled in with “m”.
- col 7 and 9 United States → Master’s and Doctoral or equivalent level should be filled in with “m”.

Table B6.3

- Col 10 EU22 AVERAGE → “92” should be replaced by “91”

Page 249

- Last bullet, last sentence → need to add the Czech Republic

In the Czech Republic, Finland, France, Germany, the Netherlands and Slovenia, virtually all adults over 24 who are enrolled at this level of education are in vocational programmes.

Page 250

- First paragraph, 5th line → delete “and Estonia (8”).

In other countries, full enrolment is achieved for children between the ages of 5 and 6, except in the Russian Federation (7) and Estonia (8).

End of 3rd paragraph, delete “Estonia and”

Enrolment rates among 5-14 year-olds are higher than 95% (i.e. there is universal coverage of basic education) in nearly all OECD countries with available data, with the exception of Estonia and the Slovak Republic.

Page 254

- First line → replace 71% with 72%

Almost three-quarters (71% 72%) of 25-64 year-old upper secondary students are enrolled in vocational programmes on average across OECD countries.

Text
Section on Trends in the transition from school to work: Belgium has been removed from the following sentence: “Some countries have not followed this general tendency though: in Estonia, Hungary, Iceland, Israel and Poland, employment rates have increased by at least 5 percentage points among 20-24 year-olds over the past decade (Table C5.2).”

Page 308

Figure C5.3
BELGIUM → 16.9 should be replaced by 14.3 which will move between Estonia and Lithuania in the ranking.

Page 313

Table C5.2
col 13 BELGIUM → 28.9 should be replaced by 49.9.
col 14 BELGIUM → 54.2 should be replaced by 35.8.
col 15 BELGIUM → 16.9 should be replaced by 14.3.
col 13 OECD average → 44.7 should be replaced by 45.4.
col 14 OECD average → 39.0 should be replaced by 38.4.
col 15 OECD average → 16.2 remains.
col 13 EU22 average → 47.2 should be replaced by 48.2.
col 14 EU22 average → 36.3 should be replaced by 35.5.
col 15 EU22 average → 16.5 should be replaced by 16.3.

Page 353

Figure D2.a (Box D2.1)
Removed UK (and associated note) from the graph:

1. Public and government-dependent private institutions only.
2. Public institutions only.
Countries are ranked in descending order of the number of teachers per class in lower secondary education.
Page 358  

Table D2.2  
- For upper secondary - all programmes (Col 5), the OECD average should be 13 (instead of 14) and the EU average should be 12 (instead of 13).  
- For bachelor’s or equivalent (Col 9), the OCED average should be 15 (instead of M).  
- For upper secondary – vocational (Col 4), the G20 average should be 13 (instead of 14).  
- For upper secondary – all programmes (Col 5), the G20 average should be 16 (instead of 17).
