

# Strategic Foresight (SF)

- **Mission:** strengthen the use of strategic foresight to improve policy-making in the face of uncertainty
- **Priorities:**
  - Strengthen foresight at the OECD
    - Work with directorates, committees, horizontal initiatives
  - Promote foresight in governments
    - Government Foresight Community
    - Delegations and governments
  - Use foresight to inform global dialogue
    - MCM, GSG, G20, etc
- **Activities:**
  - Design and facilitate workshops, convene networks, prepare foresight products and advice

**Strategic Foresight** is a structured approach for looking beyond the expected future by:

- Identifying weak signals of change and emerging trends
- Exploring alternative plausible futures (scenarios) and critical uncertainties
- Identifying new policy opportunities and challenges
- Developing strategies that are robust in face of change ('future-proofing')
