- E-government,  
- Other digital strategy (please specify e.g. business, e-learning, e-health, etc.)  
Additional information to elaborate on how e-commerce (or other digital strategy) features in your national development strategy.  
The Belgian Development Cooperation does not focus on e-commerce as such, but adopted in September 2016 a strategic policy note on ‘Digital for Development’ (D4D). It focuses on three strategic priorities: 1) better use of big data and strive towards open data, 2) digital for inclusive societies (financial and democratic inclusion, access to quality basic services), 3) digital for sustainable and inclusive economic growth. E-commerce was deliberately not included in the strategic policy note as one of the strategic priorities; as several research reports showed, e-commerce in the 14 partner countries of the Belgian Development Cooperation, the majority of whom are in Sub Saharan Africa, represents still a very low share of total commerce due to infrastructural, regulatory and skills-related barriers. In the framework of D4D, Belgium therefore concentrates its efforts on the above-mentioned three strategic priorities. These priorities, especially the third one (digital for sustainable and inclusive economic growth), will contribute to creating the conditions in which e-commerce is more viable.

Q27: Do you have any special policy initiatives that cover the area of e-commerce (or other digital strategy)?  
No
