| EXECUTIVE SUMMARY | 19 |
| INTRODUCTION TO PISA | 23 |
| READER'S GUIDE | 29 |
| CHAPTER 1 CONTEXT OF THE PISA DIGITAL READING ASSESSMENT | 31 |
| New technologies for text, new ways of reading | 32 |
| ▪ Differences in the readability and usability of text..... | 33 |
| ▪ New features of digital texts..... | 34 |
| Impact of digital texts on reading literacy | 36 |
| ▪ Which aspects of reading are affected by digital text?..... | 36 |
| Some issues for assessing digital reading | 37 |
| Conclusions | 38 |
| CHAPTER 2 STUDENT PERFORMANCE IN DIGITAL AND PRINT READING | 39 |
| Digital reading | 40 |
| ▪ Texts..... | 40 |
| ▪ Cognitive processes..... | 42 |
| ▪ Situation..... | 44 |
| How the PISA 2009 reading results are reported | 44 |
| ▪ How the PISA 2009 digital reading tests were designed, analysed and scaled..... | 44 |
| What students can do in digital reading | 49 |
| ▪ Students reading the different levels of proficiency on the digital reading scale..... | 49 |
| ▪ Average level of proficiency..... | 51 |
| ▪ Gender differences in performance on the digital reading scale..... | 52 |
| Examples of digital reading items from the PISA 2009 assessment | 54 |
| ▪ <i>IWANTTOHELP</i> | 54 |
| ▪ <i>SMELL</i> | 60 |
| ▪ <i>JOB SEARCH</i> | 66 |
| Similarities and differences between digital and print reading assessment | 71 |
| ▪ Framework characteristics and test construct..... | 71 |
| ▪ Test design and operational characteristics..... | 73 |
| A comparison of performance in digital and print reading | 74 |
| ▪ Students reaching the different levels of proficiency..... | 74 |
| ▪ Average level of proficiency..... | 76 |
| ▪ Gender differences in performance on the digital and print reading scales..... | 78 |
| A composite scale for digital and print reading | 80 |
| ▪ Students reaching the different levels of proficiency on the composite reading scale..... | 82 |
| ▪ Average level of proficiency..... | 83 |
| ▪ Gender differences in performance on the composite reading scale..... | 85 |
| Conclusions | 86 |

| | |
|--|-----|
| CHAPTER 3 NAVIGATION IN THE PISA 2009 DIGITAL READING ASSESSMENT | 89 |
| General patterns in the relationship between navigation and performance in digital and print reading | 90 |
| ▪ Relevance of pages..... | 91 |
| ▪ Indicators used to describe navigation..... | 91 |
| ▪ Distribution of navigation indices at the country level..... | 93 |
| ▪ Relationships among navigation, print and digital reading..... | 97 |
| ▪ Correlations between navigation and performance..... | 97 |
| ▪ Regression of digital reading performance on print reading and navigation..... | 98 |
| ▪ Non-linear effects of navigation on digital reading performance..... | 100 |
| Case studies: Navigation behaviour of students in selected digital reading tasks | 102 |
| ▪ Tasks analysed in the case studies..... | 103 |
| ▪ <i>IWANTTOHELP</i> | 105 |
| ▪ <i>SMELL</i> | 113 |
| ▪ <i>JOB SEARCH</i> | 117 |
| Conclusions | 120 |
| | |
| CHAPTER 4 RELATIONSHIPS BETWEEN DIGITAL READING PERFORMANCE AND STUDENT BACKGROUND, ENGAGEMENT AND READING STRATEGIES | 123 |
| Family background | 124 |
| ▪ Socio-economic background..... | 124 |
| ▪ Immigrant status..... | 127 |
| ▪ Languages spoken at home..... | 127 |
| ▪ Performance differences within and between schools..... | 128 |
| Student engagement and attitudes | 128 |
| ▪ Engagement in reading and digital reading proficiency..... | 129 |
| ▪ Do students who enjoy reading read better on line?..... | 131 |
| ▪ The association between the diversity of print material students read and digital reading proficiency..... | 132 |
| ▪ Online reading practices..... | 133 |
| ▪ Gender differences in online reading practices..... | 134 |
| ▪ Online reading practices and digital reading proficiency..... | 135 |
| Reading strategies | 138 |
| ▪ Awareness of strategies to understand and remember information..... | 138 |
| ▪ Awareness of effective strategies to summarise information..... | 138 |
| Model for the relationship between reading performance and student background characteristics | 139 |
| ▪ Parents' occupation..... | 139 |
| ▪ Parents' education..... | 139 |
| ▪ Number of books in the home..... | 139 |
| ▪ Cultural possessions..... | 139 |
| ▪ Home educational resources..... | 139 |
| Conclusions | 140 |
| | |
| CHAPTER 5 STUDENTS' FAMILIARITY WITH INFORMATION AND COMMUNICATION TECHNOLOGIES | 143 |
| Students' access to ICT | 144 |
| ▪ The number of students who have never used a computer..... | 144 |
| ▪ Students' access to a computer and the Internet at home..... | 146 |
| ▪ Students' access to computers and the Internet at school..... | 150 |
| How students use technology at school and at home | 157 |
| ▪ Students' use of ICT at home..... | 157 |
| ▪ Students' use of ICT at school..... | 162 |
| Students' attitudes towards and self-confidence in using computers | 167 |
| ▪ Students' attitudes towards using computers..... | 167 |
| ▪ Students' confidence in computer use and technical proficiency..... | 170 |
| Conclusions | 175 |

| | |
|---|-----|
| CHAPTER 6 STUDENTS' USE OF INFORMATION AND COMMUNICATION TECHNOLOGIES AND THEIR PERFORMANCE IN DIGITAL READING | 177 |
| Access to and use of computers and performance | 178 |
| ▪ Access to and use of computers at home..... | 178 |
| ▪ Computer access and use at school..... | 179 |
| Different types of computer use and performance | 180 |
| ▪ Use of computers at home and performance..... | 180 |
| ▪ Use of computers at school and performance..... | 185 |
| Relationship between selected computer activities and performance in digital reading, in detail | 189 |
| ▪ Computer use at home | 189 |
| ▪ Computer use at school..... | 190 |
| ▪ Navigation and computer use at home and at school..... | 191 |
| Students' self-confidence in doing ICT tasks | 195 |
| ▪ Students' self-confidence in using computers and performance..... | 195 |
| ▪ Students' self-confidence in doing ICT tasks and activities | 197 |
| Conclusions | 197 |
| CHAPTER 7 SOME ASPECTS RELATED TO DIGITAL READING PROFICIENCY | 201 |
| Variation in student reading performance | 203 |
| Socio-economic aspects | 203 |
| ▪ Student socio-economic background..... | 203 |
| ▪ Mean school socio-economic background..... | 204 |
| Attitudes towards reading | 204 |
| ▪ Enjoyment of reading..... | 204 |
| ▪ Diversity of reading materials | 205 |
| Use of computers | 205 |
| ▪ Computer use at home | 205 |
| ▪ Computer use at school | 205 |
| Online reading practices | 205 |
| ▪ Searching-information activities..... | 206 |
| ▪ Social activities | 206 |
| Learning strategies | 206 |
| ▪ Awareness of strategies to understand and remember information | 206 |
| ▪ Awareness of effective strategies to summarise information | 206 |
| Gender | 206 |
| Variation explained by the model | 207 |
| Conclusions | 207 |
| POLICY IMPLICATIONS | 209 |
| Helping students develop effective skills in reading digital texts | 209 |
| Addressing underperformance of boys | 210 |
| Improving access to ICT | 210 |
| Enabling effective use of ICT in schools | 210 |
| REFERENCES | 213 |
| ANNEX A TECHNICAL BACKGROUND | 217 |
| Annex A1a: Construction of digital reading scales and indices from the student, school and ICT questionnaires..... | 218 |
| Annex A1b: Construction of navigation indices | 228 |
| Annex A2: The PISA target population, the PISA samples and the definition of schools..... | 233 |
| Annex A3: Standard errors, significance tests and sub-group comparisons..... | 247 |

| | |
|---|-----|
| Annex A4: Quality assurance for the digital reading assessment..... | 249 |
| Annex A5: Development of the PISA assessment instruments for print and digital reading..... | 251 |
| Annex A6: Tables showing the relationships between ICT activities and performance in print reading, mathematics and science..... | 254 |
| ANNEX B TABLES OF RESULTS | 255 |
| Annex B1: Results for countries and economies..... | 256 |
| Annex B2: Results for regions within countries..... | 385 |
| ANNEX C THE DEVELOPMENT AND IMPLEMENTATION OF PISA – A COLLABORATIVE EFFORT | 389 |

This book has...

StatLinks
A service that delivers Excel® files
from the printed page!

Look for the *StatLinks* at the bottom left-hand corner of the tables or graphs in this book. To download the matching Excel® spreadsheet, just type the link into your Internet browser, starting with the <http://dx.doi.org> prefix. If you're reading the PDF e-book edition, and your PC is connected to the Internet, simply click on the link. You'll find *StatLinks* appearing in more OECD books.

BOXES

| | | |
|------------|---|-----|
| Box VI.A | Key features of PISA 2009 | 26 |
| Box VI.3.1 | Example of navigation indices | 91 |
| Box VI.3.2 | How the findings are organised | 92 |
| Box VI.4.1 | A cycle of engagement in reading activities, reading strategies and reading performance | 129 |
| Box VI.4.2 | The association between reading engagement, awareness of reading strategies and reading performance | 130 |
| Box VI.4.3 | Interpreting PISA indices | 130 |
| Box VI.4.4 | Relationship between online reading, print reading and enjoyment of reading | 137 |
| Box VI.5.1 | How information on students' familiarity with ICT was collected | 145 |
| Box VI.5.2 | Indices to analyse frequency of ICT use | 157 |
| Box VI.6.1 | Labels for each group of students: Students' use of computers | 180 |
| Box VI.6.2 | Relationship between ICT activities and performance in print reading, mathematics and science | 192 |
| Box VI.6.3 | Labels for each group of students: Students' self-confidence in using computers | 195 |

FIGURES

| | | |
|----------------|---|----|
| Figure VI.A | A map of PISA countries and economies | 27 |
| Figure VI.1.1 | Comparison of print and digital texts | 33 |
| Figure VI.2.1 | Digital reading tasks by environment | 40 |
| Figure VI.2.2 | Digital reading tasks by text format | 41 |
| Figure VI.2.3 | Digital reading tasks by text type | 41 |
| Figure VI.2.4 | Digital reading tasks by aspect | 42 |
| Figure VI.2.5 | Relationship between text processing and navigation in digital reading tasks | 43 |
| Figure VI.2.6 | Digital reading tasks by situation | 44 |
| Figure VI.2.7 | Relationship between questions and students on a proficiency scale | 45 |
| Figure VI.2.8 | Summary descriptions for four levels of proficiency in digital reading | 46 |
| Figure VI.2.9 | Map of selected digital reading questions in PISA 2009, illustrating the proficiency levels | 48 |
| Figure VI.2.10 | How proficient are students in digital reading? | 49 |
| Figure VI.2.11 | Comparing countries' performance in digital reading | 51 |
| Figure VI.2.12 | Where countries rank in digital reading performance | 52 |
| Figure VI.2.13 | Gender differences in digital reading performance | 53 |
| Figure VI.2.14 | How proficient are girls and boys in digital reading? | 53 |
| Figure VI.2.15 | Distribution of score points in digital and print reading assessments, by text format | 71 |
| Figure VI.2.16 | Distribution of score points in digital and print reading assessments, by text type | 72 |
| Figure VI.2.17 | Distribution of score points in digital and print reading assessments, by aspect | 73 |
| Figure VI.2.18 | Similarities and differences between digital and print reading assessments in PISA 2009 | 73 |
| Figure VI.2.19 | A comparison of performance levels on the digital and print reading scales | 75 |
| Figure VI.2.20 | Percentage of students at each proficiency level on the digital and print reading scales | 76 |
| Figure VI.2.21 | Comparison of mean performance in digital and print reading | 77 |
| Figure VI.2.22 | Where countries rank in digital and print reading performance | 78 |
| Figure VI.2.23 | Comparison of gender gaps in digital and print reading | 79 |
| Figure VI.2.24 | Alignment between the described levels for digital and print reading and composite reading | 80 |
| Figure VI.2.25 | Summary descriptions for the composite reading scale (digital and print combined) | 81 |
| Figure VI.2.26 | How proficient are students on the composite reading scale? | 82 |
| Figure VI.2.27 | Comparing countries' performance on the composite reading scale | 84 |
| Figure VI.2.28 | Where countries rank on the composite reading scale | 84 |
| Figure VI.2.29 | Gender differences on the composite reading scale | 85 |
| Figure VI.2.30 | How proficient are girls and boys on the composite reading scale? | 86 |

| | | |
|----------------|---|-----|
| Figure VI.3.1 | Illustration of the relationship between number of relevant pages visited and digital reading performance | 93 |
| Figure VI.3.2 | Distribution of the number of pages and visits, aggregated across OECD countries..... | 94 |
| Figure VI.3.3 | Relationship between the number of relevant pages visited and digital reading performance..... | 94 |
| Figure VI.3.4 | Relationship between the number of visits to relevant pages and digital reading performance..... | 95 |
| Figure VI.3.5 | Relationship between the number of page visits and digital reading performance | 95 |
| Figure VI.3.6 | Relationship between standard deviation and mean of the number of relevant pages visited..... | 96 |
| Figure VI.3.7 | Relationship between standard deviation of the number of relevant pages visited and digital reading performance..... | 97 |
| Figure VI.3.8 | Relationship between the number of visits to relevant pages (centred) and digital reading performance, OECD average | 101 |
| Figure VI.3.9 | Summary of characteristics of digital reading tasks analysed in this section | 104 |
| Figure VI.3.10 | Relevant pages for <i>IWANTTOHELP</i> – Question 4..... | 109 |
| Figure VI.3.11 | Extremes of student behaviour for <i>IWANTTOHELP</i> – Question 4..... | 112 |
| <hr/> | | |
| Figure VI.4.1 | Strength of socio-economic gradient and reading performance..... | 126 |
| Figure VI.4.2 | Student performance in digital reading and immigrant status | 127 |
| Figure VI.4.3 | Variation in performance in digital and print reading explained by students’ and schools’ socio-economic backgrounds.... | 128 |
| Figure VI.4.4 | Relationship between enjoyment of reading and digital reading performance..... | 131 |
| Figure VI.4.5 | Relationship between diversity of reading and digital reading performance..... | 133 |
| Figure VI.4.6 | Index of online searching-information activities, by gender | 134 |
| Figure VI.4.7 | Index of online social activities, by gender | 135 |
| Figure VI.4.8 | Relationship between online searching-information activities and digital reading performance..... | 136 |
| Figure VI.4.9 | Relationship between online social activities and digital reading performance..... | 136 |
| Figure VI.4.10 | Single-level model to explain performance in digital and print reading, OECD average-16..... | 139 |
| <hr/> | | |
| Figure VI.5.1 | Percentage of students who reported that they have never used a computer, by socio-economic background..... | 145 |
| Figure VI.5.2 | Percentage of students who reported having a computer at home in PISA 2000 and 2009..... | 146 |
| Figure VI.5.3 | Percentage of students who reported having a computer at home, by socio-economic background..... | 146 |
| Figure VI.5.4 | Change in the percentage of students who reported having a computer at home between 2000 and 2009, by socio-economic background..... | 147 |
| Figure VI.5.5 | Percentage of students who reported having access to the Internet at home in 2000 and 2009..... | 149 |
| Figure VI.5.6 | Percentage of students who reported having access to the Internet at home, by socio-economic background | 149 |
| Figure VI.5.7 | Change in the percentage of students who reported having access to the Internet at home between 2000 and 2009, by socio-economic background..... | 150 |
| Figure VI.5.8 | Computers-per-student ratio in 2000 and 2009..... | 151 |
| Figure VI.5.9 | Percentage of students with access to computers at school | 152 |
| Figure VI.5.10 | Percentage of students with access to the Internet at school..... | 152 |
| Figure VI.5.11 | Percentage of students who reported using a computer at home and at school | 153 |
| Figure VI.5.12 | Percentage of students who reported using a computer at home and at school, by socio-economic background | 154 |
| Figure VI.5.13 | Percentage of students who reported using the Internet at home and at school..... | 155 |
| Figure VI.5.14 | Percentage of students in schools where the principal reported shortage or inadequacy of computers for instruction, by socio-economic background..... | 156 |
| Figure VI.5.15 | Percentage of students who reported that they did the following activities at home for leisure at least once a week, OECD average-28..... | 158 |
| Figure VI.5.16 | Index of computer use at home for leisure, by gender and socio-economic background..... | 159 |
| Figure VI.5.17 | Percentage of students who reported that they did the following activities at home for schoolwork at least once a week, OECD average-29..... | 160 |
| Figure VI.5.18 | Index of computer use at home for schoolwork-related tasks, by gender and socio-economic background..... | 161 |
| Figure VI.5.19 | Percentage of students who reported that they did the following activities at school at least once a week, OECD average-29..... | 163 |
| Figure VI.5.20 | Index of computer use at school, by gender and socio-economic background..... | 164 |
| Figure VI.5.21 | Percentage of students who reported that they use a computer during regular classroom lessons at least some time during a typical week, OECD average-29..... | 165 |
| Figure VI.5.22 | Intensity of computer use during language-of-instruction lessons..... | 166 |

| | | |
|-----------------|--|-----|
| Figure VI.5.23 | Percentage of students who reported using laptops at school | 167 |
| Figure VI.5.24 | Percentage of students who reported positive attitudes towards computers, OECD average-28..... | 168 |
| Figure VI.5.25 | Index of attitudes towards computers, by gender and socio-economic background | 169 |
| Figure VI.5.26 | Percentage of students who reported being able to do each of the following tasks very well by themselves or with help from someone, OECD average-29..... | 170 |
| Figure VI.5.27 | Index of self-confidence in ICT high-level tasks, by gender and socio-economic background..... | 171 |
| Figure VI.5.28 | Percentage of students who reported being able to create a multi-media presentation | 172 |
| Figure VI.5.29 | Percentage of students who reported being able to use a spreadsheet to plot a graph..... | 173 |
| Figure VI.5.30 | Percentage of students who reported being able to do the following tasks very well by themselves or with help from someone, in 2003 and 2009..... | 174 |
| <hr/> | | |
| Figure VI.6.1 | Difference in digital reading scores between students who use a computer at home and those who do not..... | 178 |
| Figure VI.6.2 | Difference in digital reading scores between students who use a computer at school and those who do not..... | 180 |
| Figure VI.6.3 | Computer use at home for leisure, and digital reading performance, OECD average-15..... | 181 |
| Figure VI.6.4 | Index of computer use at home for leisure, and digital reading performance, by gender, OECD average-15..... | 182 |
| Figure VI.6.5a | Index of computer use at home for leisure, and digital reading performance, by socio-economic background (Japan)..... | 183 |
| Figure VI.6.5b | Index of computer use at home for leisure, and digital reading performance, by socio-economic background (Chile)..... | 183 |
| Figure VI.6.6 | Computer use at home for schoolwork, and digital reading performance, OECD average-15..... | 184 |
| Figure VI.6.7 | Computer use at school and digital reading performance, OECD average-15..... | 186 |
| Figure VI.6.8 | Index of computer use at school, and digital reading performance, by gender, OECD average-15..... | 186 |
| Figure VI.6.9 | Index of computer use at school, and digital reading performance, by socio-economic background (Japan)..... | 187 |
| Figure VI.6.10a | Intensity of computer use in school lessons, and digital reading performance, OECD average-15..... | 188 |
| Figure VI.6.10b | Prevalence of computer use in school lessons, and difference in digital reading performance according to intensity of computer use in school lessons..... | 188 |
| Figure VI.6.11 | Frequency of computer use at home for leisure and schoolwork, and digital reading performance before and after accounting for print reading performance, OECD average-15..... | 190 |
| Figure VI.6.12 | Frequency of computer use at school, and digital reading performance before and after accounting for print reading performance, OECD average-15..... | 191 |
| Figure VI.6.A | Index of computer use at home for leisure, and performance in print reading, digital reading, mathematics and science, OECD average-15..... | 192 |
| Figure VI.6.B | Index of computer use at home for leisure, and performance in print reading, mathematics and science, by gender, OECD average-15..... | 193 |
| Figure VI.6.13a | Index of the number of relevant pages visited, by frequency of computer use at home for leisure, OECD average-15..... | 194 |
| Figure VI.6.13b | Index of the number of relevant pages visited, by frequency of computer use at home for schoolwork and computer use at school, OECD average-15..... | 194 |
| Figure VI.6.14 | Self-confidence in ICT high-level tasks, and digital reading performance, OECD average-15..... | 196 |
| Figure VI.6.15 | Index of self-confidence in ICT high-level tasks, and digital reading performance, by gender, OECD average-15..... | 196 |
| Figure VI.6.16 | Frequency of computer use at home and school, and index of self-confidence in high-level ICT tasks, OECD average-15..... | 198 |
