

OECD Regions and Cities at a Glance 2018

What can you find in it?

More than **40 indicators** for individual cities and regions grouped around five themes:

New to this edition:

- ✓ An assessment of migrant integration, based on new indicators produced for OECD regions.
- ✓ Recent trends on entrepreneurship in regions, with new indicators on creation and destruction of firms and on the jobs associated with such dynamics.
- ✓ An assessment of socio-economic conditions, inequalities and poverty in metropolitan areas and their neighbourhoods.

- **Regions as drivers** of national competitiveness
- **Well-being in regions**
- **Population dynamics and inclusiveness** in regions
- **Cities and national economies**
- **Subnational government finance and investment**

Country pages

Take a look at the country pages and see how regions and cities fare in terms of well-being conditions and socio-economic trends.
