Topics:

1. Introduction to Sustainable Local Development
2. Policy Frameworks for Sustainable Development
3. Case Studies of Successful Local Initiatives
4. Challenges and Opportunities in Sustainable Development
5. Future Directions and Strategies for Local Development
Target Group
Young Local Administrators from Trentino and Triveneto.

Goals
The Academy is a training opportunity for young municipal administrators to acquire an open mind-set towards innovation on issues of integrated local development and programming. It also provides a method for the definition of policies in the field of planning and governance of local development through the design of integrated interventions, coherent with the local history and culture of the Trentino Province and funded by resources from European, national, and regional policy frameworks.

Objectives

→ To offer conceptual tools for developing a strategic vision of local development policy in the evolutionary perspective of global mega trends;

→ To provide a knowledge framework and an integrated approach to place-based development policies;

→ To better understand the architecture of the policies, the institutions and the programmes at provincial, national and EU levels together with the corresponding relevant local development funding opportunities;

→ To learn how to build a team of administrators, stakeholders and partners for the design of enduring local development projects;

→ To learn the ways of building and operating an effective governance for the strategies, the programmes and the projects and how to evaluate outcomes and impacts.

Key contents

History and Culture - The history and culture of the territory, as the key factors in building the long-lasting local development strategies.

Global Mega Trends - How international mega trends affect local development and how to act locally with respect to global challenges.

Strategy and Vision - Strategic vision and integrated local development policies.

Policy framework – Local development policies, from the Trentino perspective, in the National and European framework of the next decade.

Laura Pezzato - laura.pezzato@tsm.tn.it
Each day includes keynote speeches, group work and a discussion of case studies and is concluded with shared synthesis of the acquired key skills. The speeches are conceived to illustrate concepts, models and tools, and to understand the good practices of programming and policy design. The group work will be guided by a facilitator to enhance the contribution of all participants to deepening the themes and analysing cases while working on methodologies.

An outdoor training experience is designed to better understand the meaning of "teamwork" for common goals. The case studies are selected from the noteworthy experiences implemented in Val di Sole (also through visits on site), the Province of Trento or at the national and international levels. The aim is to share knowledge among the participants in order to learn and draw inspiration.

Val di Sole, the host of the first edition of the Academy, therefore, will be a living laboratory that offers ideas and relevant issues on local development to discuss.
Academy Partners

The OECD Trento Centre for Local Development

The OECD Trento Centre for Local Development is part of the Centre for Entrepreneurship, SMEs, Regions and Cities (CFE) of the OECD (Organisation for Economic Co-operation and Development). The mission of the Trento Centre is to build capacities for local development in OECD member and non-member countries. The Trento Centre work is structured around two dimensions: i) providing capacity building for people, places and institutions on issues related to local development; ii) developing a policy lab on issues related to spatial productivity (Spatial Productivity Lab). More info: www.trento.oecd.org.

The Autonomous Province of Trento

The Autonomous Province of Trento, lies in the heart of the Alps, mid-way between two of the most highly developed areas in Europe: the Po valley and Bavaria. With its 530 thousand inhabitants and solid economic base, nowadays the Province offers levels of wellbeing and quality of life, which are among the highest in Italy and Europe. The Special Statute of Autonomy, in effect since 1948, grants the Autonomous Province the direct legislative, administrative and financial jurisdiction in fundamental areas, including education, health, industrial policy, transport, university and tourism and allows it to administrate 90% of direct and indirect income collected within the Province. www.provincia.tn.it

tsm - Trentino School of Management

tsm is a consortium composed of the Autonomous Province of Trento, the University of Trento and the Region of Trentino Alto Adige–Südtirol. tsm is committed to both training and applied research in the public and private sectors, with a particular focus on the Trentino economy. The core activity of tsm is to provide training courses to public sector stakeholders, main actors (i.e. the Autonomous Province of Trento), related organization and companies. By creating a growth-friendly environment, tsm supports a development vision based on life-long learning principles. At the local level, tsm stands out as an integral part of a system improving skills in the public administration, and a reference point for training and research in the Autonomous province of Trento. www.tsm.tn.it.
