20 Years of Progress Implementing the OECD Anti-Bribery Convention

Monitoring Implementation and Enforcement of the Convention
Distinctive Features of the OECD Working Group on Bribery’s Peer-Review Process

- On-site visits to the country under evaluation are mandatory
- On-sites must include panels with civil society and the private sector
- Countries under evaluation cannot block the findings or recommendations in the reviews
- Reviews are published without exception, along with a press release
- Implementation of the recommendations in each review is systematically followed up
- Inadequate implementation of the Convention can be met with additional steps

Each review is adopted by all the Working Group members, minus the one under evaluation.
