

THE OECD NETWORK ON FISCAL RELATIONS...

- Is a high level, multidisciplinary platform bringing together fiscal policy makers on both the expenditure and taxation sides of the budget.
- Provides policy analysis on fiscal relations and subnational public finance, driven by Network member countries and widely published.
- Organises workshops and expert meetings, both at the OECD headquarters and in member countries, and meets once a year at Committee level.
- Maintains and regularly updates an extensive database covering all facets of intergovernmental fiscal relations.

Did you know?

Sub-central governments represent 32% of public spending, 15% of tax revenue and 65% of public investment across the OECD. They strongly affect growth and inequality.

THE DECENTRALISATION DATABASE INCLUDES INDICATORS ON...

- revenue and spending decentralisation
- tax autonomy
- composition of intergovernmental grants
- sub-national fiscal rules
- sub-national deficits and debt

Taxes, transfers and user fees

Network members:

Austria, Belgium, Denmark, France, Germany, India, Italy, Korea, Mexico, Netherlands, Norway, Spain, Switzerland and Turkey.

PROGRAM OF WORK

- Main topics on the work program are Inclusive Growth and Decentralisation, Frameworks, and Public Sector Productivity.
- The next annual meeting will be on 19-20 November 2018, in Paris at the OECD.
- Contact: Sean Dougherty, Senior Advisor, sean.dougherty@oecd.org

RECENT POLICY ANALYSIS

- **Decentralisation and inequality:** Do decentralised countries grow more or less equal? And are regional disparities larger?
- **The taxation of immovable property:** What is a “good” property tax, and how can property tax reform be successfully implemented?
- **Debt monitoring and management:** Should central government monitor sub-national debt, and if so, what are the preferred instruments?
- **Fiscal constitutions:** Do constitutional frameworks affect fiscal policy? How conducive are they to long-term growth?
- **Decentralization, education, and growth:** Do decentralised countries invest more and grow faster? And do their students perform better?
- **Sub-central fiscal rules:** How to design sub-central fiscal rules that foster stable and sustainable public finances and inclusive growth?
