TAX CO-OPERATION FOR DEVELOPMENT

Advisory Group for Co-operation with Partner Economies
15 September 2020

Ben Dickinson - Head, Global Relations and Development Division
Tax for development

• Rapid growth from modest outreach in 1990’s to a more comprehensive and integrated approach to tax and development.

• Step changes in inclusion and participation are leading to demands from developing countries for other services and calls for change.

• 2019 progress report: a diverse range of activity from TIWB to tax policy, to measuring aid directed at tax matters.
Involvement of developing countries

Membership of the Inclusive Framework on BEPS by region

as of December 2019

- Western Europe (30)
- Africa (25)
- Asia-Pacific (20)
- Americas (34)
- Eastern Europe-Central Asia (28)

Total: 137

Source: OECD/G20 Inclusive Framework on BEPS • Created with Datawrapper

Global Forum membership by region

as of December 2019

- Western Europe (31)
- Africa (31)
- Asia-Pacific (24)
- Americas (41)
- Eastern Europe-Central Asia (22)

Total: 159

Source: Global Forum on Transparency and Exchange of Information for Tax Purposes • Created with Datawrapper
The report covers the range of how developing countries engaged in 2019 with the OECD’s work on tax matters through four inter-connected efforts:

• Inclusive international standards
• Country-level capacity building
• Guidance, data and multilateral training
• Partnerships with other IOs and RTOs
Mainstreaming of the OECD’s work on tax

**Tax crimes and other financial crimes**
Maximising the information and tools developed in fighting tax evasion to help in the fight against other serious economic crimes, including corruption, money laundering and financial fraud.

**Beyond BEPS and EOI: Providing developing countries with the full range of OECD tools and expertise**
As a result of the recent engagement of developing countries in the BEPS work and in the Global Forum, many new opportunities of where other OECD standards, data, guidance and expertise can help developing countries have been identified.

**Value-Added Tax**
Value-added tax (VAT) is the most important source of tax revenue for most low-income and developing countries, and the OECD’s standards and expertise in VAT are increasingly in demand from developing countries.

**Environmental Taxes**
Environmental taxes and fiscal reforms are key elements to realising the Paris Agreement, areas of increasing interest to developing countries and the OECD has the most detailed and comprehensive data and analysis in this field.

**Tax Policy**
Tax policy plays a crucial role in realising the SDGs. The OECD is providing tax policy analysis to a growing number of developing countries.

**Revenue Statistics**
The OECD is the leading repository for comparable tax revenue statistics that are vital to informed public policy decision-making.

**Tax Administration**
The OECD’s Forum on Tax Administration (FTA) brings together Tax Commissioners from both OECD and non-OECD countries to work together to identify, discuss and influence relevant global trends in tax administration and develop new ideas to enhance tax administration around the world.

**Tax and Development Co-operation**
The OECD prioritises the smooth co-ordination and alignment of policies between the OECD tax and development agenda and the broader development community, fostering collaboration and avoiding duplication of effort.
Response to COVID-19

• Virtual bilateral missions
• Regional discussion forums
• Virtual classes
  – Global Relations Programme in Taxation (GRP)
  – Global Forum on Transparency and Exchange of Information
  – Tax Academies
• E-learning developed under the GRP
Assistance to developing countries

• Global Relations Programme
  ➢ Face-to-face training
  ➢ Production of e-learning modules (training and tailored assistance to developing countries)

• Bilateral assistance on transfer pricing

• Induction programme on BEPS implementation – 41 ongoing
TIWB is a joint OECD/UNDP initiative launched in 2015, delivering technical assistance in the area of tax to developing country tax administrations.

Specifically, deployed experts work with host country/jurisdiction auditors on real, current cases, to increase the tax administration’s capacity to impose taxes on taxpayers, and thus domestic resource mobilisation.

**Areas of Assistance**

- Tax Audit
- Criminal Investigation
- Effective use of AEOI data
- Tax Treaty Negotiations & Implementation
- Taxation and Natural Resource Contracts
- Tax and Environment
TIWB revenue increases

FIGURE 1. Cumulative Regional Reported Revenue Increases from TIWB Assistance, 2012 to 31 December 2019

- LATIN AMERICA AND CARIBBEAN: USD 138.9 million
- EASTERN EUROPE: USD 1.5 million
- AFRICA: USD 334.2 million
- ASIA: USD 57.4 million

Source: TIWB Secretariat
The Platform for Collaboration on Tax

• Launched in 2016 to intensify co-operation between IMF, OECD, UN and WBG
• Joint toolkits on key issues for developing countries on international tax
  – Offshore Indirect Transfers - launched June 2020
  – Transfer Pricing Documentation – Final version due shortly
  – Tax Treaty Negotiations – Consultation closed 10 September
  – GRP has been working with PCT to help deliver toolkit training
• Medium Term Revenue Strategies – PCT recommendation, 23 countries currently discussing, designing or implementing
• PCT website – launched March 2020
  – Contains details of all the PCT partners technical assistance
  – Has been adapted to act as a hub for all PCT partners COVID resources
• See PCT annual report for more details
Development outputs in the second half of 2020

- TIWB Annual Report 2020
- Tax & Development Case Studies
- Building Tax Culture, Compliance and Citizenship - A Global Source Book on Taxpayer Education (Update)
- Tax Certainty Report
- Rev Stats in Asia and Pacific Economies report Global Revenue Statistics Database (with new China data)
- OECD and Kenya join forces to stem illicit financial flows by establishing new African tax academy
- GF Toolkit on becoming a party to the MAAC
- GF Toolkit on setting up an effective EOI unit for developing countries, with ATAF
- Domestic resources mobilisation for health financing: Morocco and Cote d’Ivoire
- GF plenary meeting + annual report + first AEOI peer reviews
- OECD Tax Policy Reviews: Kazakhstan 2020
- New e-learning modules on EOIR and VAT
Mainstreaming of the OECD work on development will continue.

In response to COVID-19, the GRP and GF will continue with virtual training.

The pandemic amplifies some calls:
- for changes to tax policy (e.g. carbon or property tax),
- to tax administration (a step change in digital technology for tax collection), and
- to take stock of how the international tax rules can help developing countries.
What’s happening with digitalisation?

• G20 Finance Ministers met in July 2020
  – “We will continue our cooperation for a globally fair, sustainable and modern international tax system.”
  – Blueprints for pillar 1 and pillar 2
  – “… reaffirm our commitment to reach a global and consensus-based solution this year.”

• Inclusive Framework meeting on 8-9 October 2020
• G20 Finance Ministers meeting on 15-16 October 2020
• Support for developing countries continues
THANK YOU
GLOBAL RELATIONS PROGRAMME:
AN UPDATE

Ana Rodriguez-Calderon, Tax Advisor

Advisory Group for Co-operation with Partner Economies
Global Relations and Development Division
Session 2
15 September 2020, Paris
Agenda of the session

1. Outcomes of the 2019 Global Relations Programme (GRP)

2. An avenue for cooperation
OUTCOMES OF THE 2019 GLOBAL RELATIONS PROGRAMME
2019 GRP in numbers

- **21 Venues**
- **2000+ Participants**
- **58 Events**
- **150+ Countries represented**
- **100+ Experts mobilised**
Breakdown of the events by Partners

58 EVENTS IN 2019

- Events hosted at MTCS: 26
- Events hosted by key partners: 12
- Events hosted by other countries: 9
- Events with other organizations: 11

*Note: China is counted as a MTC and not a key partner.
*Note: Events hosted by other countries do not include those organised jointly with other IOs/RTOs.
*Note: Events with other organisations do not include those hosted at a MTC.
2019 GRP: regional distribution

This map is for illustrative purposes and is without prejudice to the status of or sovereignty over any territory covered by this map.
Promoting stronger partnerships
2019 GRP Topics

16 Transfer Pricing
12 Treaties
6 Exchange of information
5 Mutual Agreement Procedure
3 Digitalisation
2 VAT
2019 GRP: country experts

UK: 15
Australia: 13
Spain: 6
New Zealand: 5
Canada: 4
Germany: 4
Italy: 4
Finland: 3
Ireland: 3
Mexico: 3
S. Africa: 3

Belgium: 2
India: 2
Norway: 2
Switzerland: 2
Turkey: 2
USA: 2
Argentina
Austria
Bulgaria
Chile
France
Hungary
Japan
Indonesia
Korea
Liechtenstein
2019 GRP: voluntary contributions

Japan
Turkey
Australia
Korea
Netherlands
Italy
2019 GRP: gender distribution

Event leaders¹:
- Female: 35%
- Male: 65%

Participants in the event²:
- Female: 42%
- Male: 58%

Event experts¹:
- Female: 31%
- Male: 69%

Notes:
1: Some of the event leaders/experts participated in more than one event.
2: Data extracted only from the events registered in the KSP (MTCs + key partners, Singapore and Malaysia)
Blended Learning in 2019

Officially 10 events

Face-to-face events to maximum capacity with demands to increase participation

More than half had some BL approach through encouragement

Allows for more practical approach and in-depth discussions of technical topics and practical
EVALUATION OF THE GRP: CURRENT AND FUTURE PROCESSES

**Evaluation form to fill after each face-to-face event**

**Evaluation form sent electronically to the participants after a virtual class**

**Level 3 Impact Analysis** 6 months after selected face-to-face events

Attempt to better evaluate the impact of our work on the tax administrations by trying to measure the changes which were implemented as a result of the GRP training.

We need the help of the country representatives for consistent filling of the evaluation forms by all participants.
2019 GRP impact: independent evaluation

- Reported average increase in knowledge: 58%
- Relevance of event topics: 90%
- Satisfaction with quality of learning (experts and leaders, materials, methodology, interaction): 93%
- Interest in future on-site learning events: 94%

Source: Independent Evaluation Service, Canada Revenue Agency
2019- 2020: post-event evaluation
AN AVENUE FOR COOPERATION
Survey conducted between October 2019 and Feb 2020:

- Tax officials from OECD and developing countries, who work on MNE taxation;
- Asks for perceptions of behaviour of large businesses/MNEs and Big 4 firms; based on voluntary tax principles that companies/Big 4 have committed to
  - BIAC Statement of Tax Best Practices for Engaging with Tax Authorities in Developing Countries
  - Big Four individual commitments (e.g. KPMG)

Global coverage: Over 1200 responses from 139 countries using the GRP network

Objective of the study:

- Previous work gave information on what MNEs think of government activities, now want to look at how MNE activities are seen by tax authorities;
- Identify how business conduct varies across countries, and provide insights into what might improve behaviour in developing countries.
• **Routine compliance** is generally good
• ...but there are clear **issues of trust**, where many tax officials say that MNEs are not open and transparent, and they do not trust the information received.
• **Tax disputes** are perceived to arise very often when auditing MNEs. However, once a dialogue/dispute resolution procedure starts, MNEs are mostly perceived as acting in good faith.
• Results on **bribery, misuse of tax incentives, and interference in domestic tax affairs** (e.g. lobbying/recruitment of personnel) are a matter of concern
• Significant variation across regions
Example of the regional breakdown:

Large business/MNEs pay their tax liabilities within the established due date

- **Africa**:
  - 1: Almost all large/MNE businesses
  - 2: Most large/MNE businesses
  - 3: About half of large/MNE businesses
  - 4: Some large/MNE businesses
  - 5: Almost no large/MNE businesses

- **Asia**

- **OECD**

- **LAC**
Results

In LAC and Africa especially there appears to be less trust:

The tax information provided by large businesses/MNEs to the tax authorities can be trusted
Next Steps

Further analysis:
• Bringing together the MNE and tax officials perceptions
  – e.g. The regions where tax officials perceive responsiveness to requests by MNEs is lowest, are the same regions where MNEs are more likely to identify inconsistency of requests by tax authorities as a source of tax uncertainty.

Broaden the dialogue:
• Develop a programme to facilitate and mediate discussion and dialogue between businesses and tax administrations to help build trust, certainty and compliance
• Regional dialogues – as results vary significantly by region, regional dialogues can allow better focus

Country Level Analysis:
• For 38 countries we have sufficient data to provide country level analysis and comparison with the region/world – ongoing pilot project with Honduras
Questions

- Can the Global Relations Programme do more to help support improved compliance? For example:
  - Increasing awareness of voluntary principles
  - E-learning module(s) on best practice for encouraging MNE compliance
  - Joint webinars with business associations to discuss and identify both problems and solutions
  - Further surveys to refine understanding of issues and obtain views on possible solutions

Results: e-learning statistics pre and post pandemic

+11,081 users

244.45% increase

Number of users of OECD e-learning modules on the KSPta platform only, excluding users that accessed the modules through platforms of their National Administrations.
BENEFITS & LESSONS LEARNED
Benefits of e-learning and lessons learned

- E-learning allows for better preparation of face-to-face events that have a practical component and that cannot be delivered fully online.
- E-learning can be used to cover the basic theory in order to do more practical workshops.
- E-learning modules are permanently available and can be accessed at any moment.
Britain’s Open University’s study found that producing and providing eLearning courses consumes an average of

90% LESS ENERGY

and produces

85% FEWER CO₂

Emissions per student than face-to-face training
CO-ORDINATING EFFORTS
Further Collaboration: ADB and FTA

A key objective of the 2020 e-learning strategy was to **increase collaboration** with external partners and organisations.

- **First module launched in collaboration with other organisations**: joint module with **ADB** on Beneficial Ownership.

- **Collaboration with the FTA**: the IRS provided expertise for a module developed in 2020 (enterprise risk management). Further collaboration is being explored (ISORA tutorials, inputs from Norway and ATO for modules on the shadow economy and APIs...).
In parallel, we are working with IMF, CIAT and IOTA to launch a joint e-learning curriculum (e-TACT).
SEEKING YOUR INPUT: NEXT STEPS
“Think about what your learners need to do with that information after the course is finished and design around that.”

Matthew Guyan
E-learning topics for 2021

- Should we make e-learning courses available to the public? (2 modules on the FTA website)
- Should we design more modules related to the pandemic?
- Should we create a suite of courses for topics like transfer pricing, tax treaties, tax & crime, EOI, etc.?°
- Do we need e-learning modules on the MLI?
THANK YOU

The global relations programme response to COVID-19: leveraging technology

Varsha Singh
Agenda Session 4
Advisory Group Meeting
15 September 2020, Paris
Objectives:

1. Keep delivering training
2. Capitalise on the opportunity presented by technology
3. Use the GRP network to encourage dialogue among Administrations
The result: three avenues of action

1. Transformation of face-to-face events into virtual format in record time. Formal protocol to deliver virtual classes.

2. Ramping up e-learning efforts and marketing existing modules.

3. Creating communication channels by organising regional dialogues.
VIRTUAL CLASSES

Registration via KSP, classes delivered via Zoom. Prior e-learning training, discussion forums and certificate of attendance.
## Overview of the GRP Virtual Classes

Participation in the GRP virtual classes

22 classes delivered in 5 months

6575 tax officials trained, equivalent to the participation of 3 years of face-to-face trainings

5 languages (Eng, Esp, Fr, Ch, Ru)

+160 participating jurisdictions
E-LEARNING EFFORTS AND REGIONAL ROUND-TABLES ON COVID-19 RESPONSES

New modules, modules focused on crisis management and outreach efforts. Using the GRP network to channel dialogue.
2020 plans and adjustments given COVID-19

Adjustments given COVID-19

- Production of 2 modules related to the pandemic
- Transformation of 3 virtual classes and dialogues to e-learning modules
- Focusing on the 4th pillar of GRP: Virtual Classes
- Adjusting the delivery of modules prioritising the ones with topics related to the pandemic
- Marketing of existing modules
COVID19: new modules about crisis management

Responses to Covid19: Business continuity considerations (click here)

Enterprise Risk Management (click here)
COVID19: webinars

Joint OECD/ATAF Virtual Discussion on Tax Policy and Tax Administration Responses to COVID-19 (Click here)

Respuestas de política y Administración Tributaria al COVID-19 (Click here)

Replay of the virtual class OECD/CIAT Introduction to transfer pricing Spanish (Click here)
Overview of the regional dialogues organised

4 regional dialogues

- Tax Policy and Tax Administration Responses to COVID-19 – ATAF/OECD
- Tax Policy and Tax Administration Responses to COVID-19 – ADB/CATA/PITAA/OECD
- Tax Policy and Tax Administration Responses to COVID-19 – CATA/COTA/CARICOM/OECD
- Business Continuity for Tax Administrations during COVID-19 – ATAF/OECD
Co-operation with regional organisations during COVID-19

**Multilateral collaborations**

- Virtual classes for LAC organized in collaboration with CIAT
- Joint UN/OECD/CIAT course on tax treaties
- PCT virtual classes on the Toolkit on Comparables
- Virtual classes for Africa organized in collaboration with ATAF
- Virtual workshop on IFF with ATAF and UNECA
- Virtual classes with SGATAR

**Country experts**

- IRS provided expertise for 1 e-learning module (Enterprise Risk Management)
- Experts for virtual classes: SUNAT (Peru), DIAN (Colombia), SAT (Mexico), Netherlands, Germany, ADB, ATO, Indonesia, Malaysia, HMRC (United Kingdom).
WHAT
TAX OFFICIALS HAVE SAID

It has been a high level informative and rewarding interaction with not only presenters but also with participants through the chat. Thanks to the presenters, ATAF, OECD, UNCECA. Looking forward to more of similar arrangements for continuous professional development and refresher.

Muchas gracias por compartir el evento, ha sido muy interesante y buen entrenamiento para conocer el BEPS, continuare con los cursos, que tanto falta me hacen. No me han defraudado con las exposiciones, me parecieron muy profesionales todos y bien preparados. Nada despreciable, por el contrario muy buenos comunicadores y claros en las exposiciones. Hasta pronto nuevamente muchas gracias!

Je vous remercie d'avoir organisé cet atelier de formation sur les Prix de Transfert pour les Pays Francophones. Cela a été d'une grande utilité pour tous les participants et a permis, à certains de consolider leurs connaissances, à d'autres de s'initier aux notions de Prix de Transfert. Je vous félicite pour la qualité de l'organisation et le contenu des cours. Ça a été un grand succès.
QUESTIONS FOR DISCUSSION

Is there a preference to keep some topics only in virtual manner?

What topics cannot be delivered virtually?
THANK YOU
GRP pre COVID-19: design process

- **June - September**: Consultations
- **September**: First draft of the 2019 GRP
- **October – November**: Confirmations with MTCs and other hosts
- **November - December**: Expert requests
- **December**: Publication of the final 2019 programme
- **January – February**: Expert requests continued
2020 Consultation with developing countries: priority areas

1. Treaties
2. Transfer Pricing EOI
4. Auditing
5. CBC MAP Digitalisation
8. Tax Administration
9. VAT
10. Other BEPS actions
GRP during COVID-19: design process

- **June - December**: Consultations
- **December - February**: Confirmation with MTCs and other hosts
- **January - April**: Expert requests
- **January**: First draft of GRP
- **March**: Publication of the final 2021 programme
Virtual classes

THE TAX OFFICIAL OF THE FUTURE
Introduction

• Tax officials are facing unprecedented challenges arising from a changing global landscape.

• What roles are the tax officials of the future expected to fulfill?

• What skills and competencies will they need to acquire to play the expected roles?
Changing Landscape

Tax was once mainly a **domestic issue** where staff was trained via an **apprenticeship system**.

But new forces have impacted the taxation landscape:

- **Globalisation**
- **New Technologies**
- **Changes in Business**
- **Changes in Working Life**
Challenges for Tax Administrations

**Globalisation:**

- Increase in cross-border transactions
- Ease of asset relocation: more opportunities for tax fraud and non-compliance.
- Greater coordination between tax administrations (BEPS project, EOI etc.)
- COVID-19

**Digitalisation:**

- Availability of portal solutions, internet, social media, mobile platforms, cloud computing, big data and analytics.
- Increase in internet-based transactions

**Other changes:**

- Changing employment patterns, way of working and lifestyles
- New businesses models
- The global financial crisis, data leaks and other financial scandals: tax minimization is no longer tolerated by the public.
**TODAY**

- **Judgement-based** authority
  Heavy reliance on audit

- **Apprenticeship system**
  Extreme bias toward law and economics disciplines

**TOMORROW**

- **Analytics-driven** authority:
  Data analysis and automation of tax processes by applying new cutting-edge technologies

- **Strategic talent management system**
  Need for “tech-savvy officials” and “tax technologists” from STEM disciplines.
The new skills required in tax officials

New skills for new challenges

I. Applying new cutting-edge technologies (robotics, AI and automation)

II. Analysing data in real-time

III. Being a C-Suite influencer

VI. Being adaptable to a more purposeful, contingent workforce
The Tax Official of Tomorrow

• New technology solutions will manage entire processes, from data collection to analysis, compliance and audit activities.

• Resource-heavy, repetitive tax work will be automated.

• “Tech-savvy officials” and “tax technologists” will be recruited.

• Tax officials will focus only in the most challenging, intellectual tasks.
Performance Indicators

- Revenue Collection
  - Governance/ budget (investment in IT, AI etc.)

- Sustainable tax systems
- AI, Big Data, digital forensics, blockchain and cryptocurrencies, statistics and data analytics
- CbCR, AEOI...

- Sustainable workforce
- Gender balance
- Training in new areas (AI, big data, digital forensic etc.)
- Talent management

- Tax Certainty
- Taxpayer centered
- Strengthened partnerships
- Inter-agency coordination

- Financial
- Internal Processes
- Customer
- Learning / Growth

Financial
- Revenue Collection
- Sustainable tax systems

Internal Processes
- Sustainable workforce
- Gender balance

Customer
- Tax Certainty
- Taxpayer centered

Learning / Growth
- Training in new areas (AI, big data, digital forensic etc.)
- Talent management
How do tax administrations make this shift?

1. Receiving senior board-level support and appointing an influential executive
   • To embark on the change and to lead the analytics program.
   • Using external pressure.

2. Developing a talent management strategy
   • To build the right mix of skills (through external training, OJT, and Human resources exchange)
   • Multi-evaluation, Salary, Promotions.

3. Addressing cultural barriers
   • By promoting the use of analytics through formal process

4. Experimenting with small pilots
   • To develop the proof of concept

5. Developing a single view of the taxpayer
   • By creating an integrated ICT infrastructure.

6. Managing data actively
   • To reduce losses from illicit activities and nudge taxpayers towards compliant behaviours.
THANK YOU
