1. Trade development activities are identified in the CRS via the Trade Development policy marker. The amounts shown represent Productive Capacity building activities marked as contributing principally or significantly to trade development. Note however that some CRS reporting donors may not use the Trade Development policy marker and that the amounts presented under this category cannot be added up when reporting on the global flows.

2. The data covered under this category are not separately identifiable as AFT within the CRS. If so desired, your government is invited to complete the columns for 2007 data (commitments and disbursements) and to provide the relevant CRS sectors.
