Investment policy review of Ukraine

Ukraine’s post-Maidan authorities have embarked upon an ambitious reform programme to improve the country’s framework for investment and strengthen the country as an attractive investment destination. This review analyses the general investment framework as well as recent reform, and shows where further efforts are necessary.

Anti-corruption reforms in Eastern Europe and Central Asia

This report focuses on Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Mongolia, Tajikistan, Ukraine and Uzbekistan, the nine countries participating in the OECD's Istanbul Anti-Corruption Action Plan. Examples from other countries in the region are also presented to give a broader perspective to the analysis. The report is based on the results of the third round of monitoring of the Istanbul Anti-Corruption Action Plan.

2016 OECD Sovereign Borrowing Outlook

In addition to examining the sovereign borrowing needs in OECD countries, this edition addresses gross borrowing requirements; net borrowing requirements; central government marketable debt; interactions between fiscal policy, public debt management and monetary policy; funding strategies, procedures and instruments; the impact of new regulations on primary market operations; liquidity in secondary markets; and the transparency of public debt statistics, operations and policies.

Corporate governance of financial groups

Companies today, in particular banks, insurance companies and other financial institutions, increasingly operate their businesses in a group structure. These groups have a growing presence in markets worldwide and the economy as a whole. This working paper examines the corporate governance of corporate groups, paying particular attention to financial groups, and includes an international perspective on corporate and financial laws. It identifies good practices and regulatory considerations for group governance.

Competencies framework on financial literacy for adults

This document describes the types of knowledge that adults aged 18 or over could benefit from, what they should be capable of doing and the behaviours that may help them to achieve financial well-being, as well as the attitudes and confidence that will support this process. It can be used to inform the development of a national strategy on financial education, improve programme design, identify gaps in provision, and create assessment, measurement and evaluation tools.
