

Aid in Support of Gender Equality and Women's Empowerment 2004-2005

New Zealand

Amounts are average commitments for 2004-2005, unless otherwise shown

Investment in gender equality and women's empowerment is vital for improving economic, social and political conditions in developing countries within the framework of sustainable development. A focus on gender equality and women's empowerment in development co-operation is a means to enhance the total effectiveness of aid (1).

An activity can target gender equality as a "principal objective" or "significant objective". **Principal** means gender equality was an explicit objective of the activity and fundamental in its design. **Significant** means gender equality was an important, but secondary, objective of the activity. Not targeted means that the activity was screened for promoting gender equality, but was found to not be targeted to it.

All activities have been screened against the gender marker: the gender coverage ratio is thus 100%.

(2) % of sector allocable aid. Activities not screened against the gender equality marker have been excluded.

(3) Since 2005 flows, the WID sector is replaced by "Support to women's equality organisations and institutions", within the "Other social infrastructure" category.

Note: Statistics on gender focus exclude non sector-allocable aid since several members do not apply the gender marker on these forms of aid. This category includes programme assistance, debt relief and emergency aid.
