

**OECD Workshop on
Incentives to Capture Biodiversity and Climate Change Benefits from Reducing Deforestation:
Linkages, Synergies and Limitations**

OUTLINE

Session 1 [Chair: Kuni Shimada, AIXG] will include an overview and discussion on:

- Incentives to Mitigate Deforestation: Total Economic Value of Forests and Capturing Ecosystem Benefits (*Katia Karousakis, OECD*)
- Mechanisms for Conserving Forests for Biodiversity (*Markus Lehman, CBD*)
- Positive Incentives and Policy Approaches to REDD under the UNFCCC (*Jenny Wong, UNFCCC*)

Session 2 [Chair: Carlos Munoz Pina, WGEAB] will focus on:

- Forest Carbon and Other Ecosystem Services: Synergies between the Rio Conventions (*Jan Fehse, Ecoscurities*)
- Linkages, Synergies and Limitations between Climate Change and Biodiversity Benefits (*OECD Secretariat-tbc*)
- Frameworks for Reducing Emissions and Conserving Biodiversity by Avoiding Deforestation: Potential Cost Sharing Arrangement and Mechanisms for Bundling Payments (*David Huberman, IUCN*)
- Methodological Issues (Monitoring, Reporting, Verification) (*Jenny Wong/Jan Corfee Morlot -tbc and Markus Lehman*)

Session 3 [Chair: Kuni Shimada, AIXG] will focus on lessons learned and experiences from specific case studies such as:

- The Mexican Payments for Environmental Services (CABSA) program (*Carlos Munoz Pina, Mexico*)
- Lessons Learned from the Noel Kempff Climate Action Project, Bolivia (*Natalia Calderon, FAN*)
- Targeting and Implementing Payments for Multiple Ecosystem Services: Theory and Application in Madagascar (*Rosimeiry Portela, Conservation International*)
- Reducing Carbon Emissions from Deforestation in the Ulu Masen Ecosystem, Aceh, Indonesia –a Climate, Community and Biodiversity Alliance accredited project (*Evan Bowen-Jones, Flora and Fauna International*)

Session 4 [Chair: Carlos Munoz Pina, WGEAB] will be an open roundtable discussion.
