Mining & Metals Sector Supplement

- In cooperation with ICMM
 - Pilot Version in 2005
 - Process to finalize the supplement starts now
-
- Working Group driven
 - Practitioners' Network

Recycling and resource efficiency indicators in G3 and Metals & Mining supplement

EN2: Percentage of materials used that are recycled input materials.

MM4: Percentage of products derived from secondary materials

MM5: Describe policies for assessing the eco-efficiency and sustainability attributes of products (e.g. recyclability ...)

Room for improvement

- Reporting experience
- Update to G3
- Extent reporting guidance to more detail

You can take this further

- Use the Guidelines
- Let us know
- Become involved in Practitioners Network!
- Become an OS member
