

The Steel Eco-Cycle

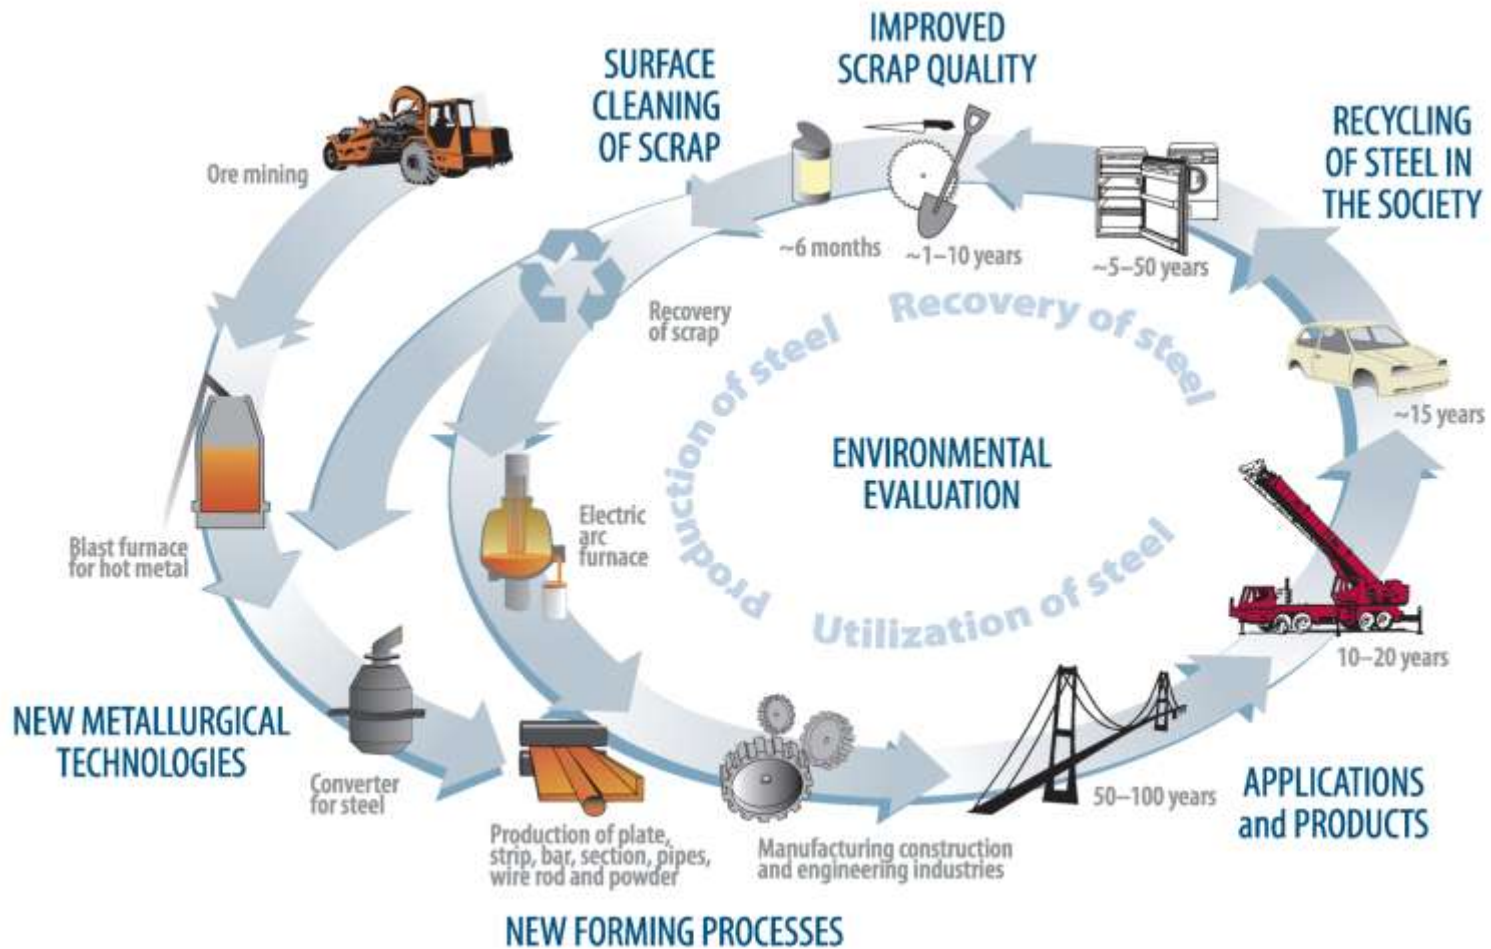

The Programme

Birgitta Lindblad, Jernkontoret

JERNKONTORET

The Steel Eco-Cycle

JERNKONTORET

The Vision

Closing the loop in the manufacture and use of steel in society

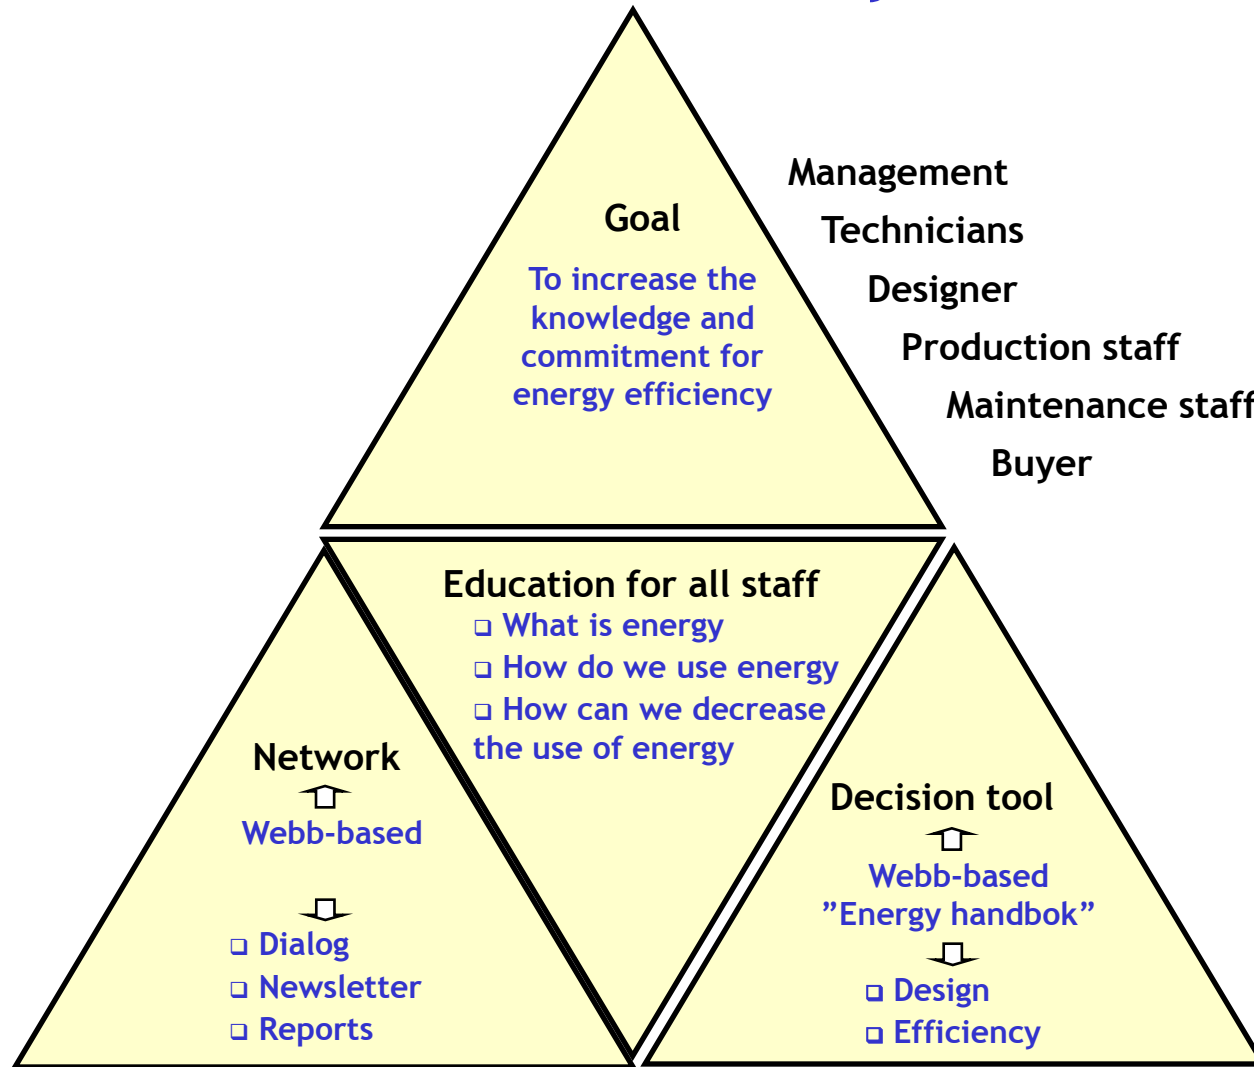

This will be accomplished by:

- Providing reliable methods to **evaluate** the environmental value
- Increasing the **recycling** of scrap metal and **optimising** the use of alloys
- **Economising** the use of steel in applications and products
- Stimulate **cooperation** and **exchange** of knowledge across the steel eco-cycle

JERNKONTORET

Energy competence programme for the mining and steel industry
