

REPORTING DIRECTIVES FOR THE CREDITOR REPORTING SYSTEM – ADDENDUM 2

Reporting on the Purpose of Aid – Classification by Sector of Destination

The following text replaces Annex 5 of DCD/DAC(2002)21.

General

1. The sector of destination of a contribution should be selected by answering the question “**which specific area of the recipient’s economic or social structure is the transfer intended to foster**”. The sector classification does **not** refer to the type of goods or services provided by the donor. Sector specific education or research activities (e.g. agricultural education) or construction of infrastructure (e.g. agricultural storage) should be reported under the sector to which they are directed, not under education, construction, etc.
2. Some contributions are not susceptible to allocation by sector and are reported as non-sector allocable aid. Examples are aid for general development purposes, general budget support, actions relating to debt, emergency assistance and internal transactions in the donor country.

CRS Purpose Codes

3. In the CRS, data on the sector of destination are recorded using 5-digit purpose codes. The first three digits of the code refer to the corresponding DAC5 sector or category. Each CRS code belongs to one and only one DAC5 category. The last two digits of the CRS purpose code are sequential and not hierarchical i.e., each CRS code stands for itself and can be selected individually or grouped to create sub-sectors. The sequential numbers have, however, been standardised for codes with similar functions as follows:

- The **most general** CRS codes end in the sequential number **10**. It refers to policy, planning and programmes; administration, institution capacity building and advice; combinations of activities and unspecified activities falling outside other code headings.
- The **main codes** have sequential numbers **20, 30, 40** and **50**.
- The **detailed codes** have sequential numbers in the range **61 - 79**.
- Sector-specific **education, training and research** codes have sequential numbers in the range **81 - 89**. Sector-specific **services** have codes with sequential numbers in the range **91 -99**.

Identifying the most suitable purpose code - Examples

4. As stated above, sector coding identifies the specific areas of the recipient’s economic or social development the transfer intends to foster. Some examples illustrating the choices follow:

- a) Construction of housing for experts working on an agricultural development project:
- The appropriate code is “agricultural development” (31120) and **not** “housing policy and administrative management”.

Construction of apartments in three cities:

- The appropriate code is “housing policy and administrative management” (16030).

- b) Privatisation of the National Energy Agency:
- The appropriate code is “energy policy and administrative management” (23010) and **not** “privatisation”.

State enterprise restructuring programme:

- The appropriate code is “privatisation” (25020).

- c) Assistance to Ministry of Education to prepare an education sector programme:
- The appropriate code is “education policy and administrative management” (11110) and **neither** “government administration” **nor** “economic and development policy/planning”.

Training of government officers in project preparation:

- The appropriate code is “economic and development policy/planning” (15110).

- d) Rail equipment delivery:
- The appropriate code is “rail transport” (21030).

Rail equipment production:

- The appropriate code is “transport equipment industry” (32172).

- e) Fertilizer delivery:
- The appropriate code is “agricultural inputs” (31150) and **not** “import support (commodities)”.

Import of general goods and services:

- The appropriate code is “import support (commodities)” (53040).

5. Within each sector, care should be taken to allocate supplies, equipment and infrastructure to the most specific code available. For example:

- a) Construction of a tuberculosis clinic:
- The appropriate code is “infectious disease control” (12250) and **not** “basic health infrastructure”.

District hospitals rehabilitation programme:

- The appropriate code is “basic health infrastructure” (12230).

- b) Primary school books delivery:
- The appropriate code is “primary education” (11220) and **not** “education facilities and training”.

Paper supply for printing school books:

- The appropriate code is “education facilities and training” (11120).

6. Sector specific education activities are to be included in the respective sectors, either in a specific education code or in a general code. For example:

- a) Upgrading of an agricultural training centre:
 - The appropriate code is “agricultural education” (31181).

- a) Environmental training course for mineral resource department:
 - The appropriate code is “Mineral/mining policy and administrative management” (32210) and neither “environmental education/training” nor “advanced technical and managerial training”.

When the purpose code does not match precisely the activity being reported

7. Within each sector or category, the first purpose code listed (sequential number “10”) is defined to include activities falling outside the other code headings. When using this code, give as much detail as possible in the written description.

- Large systems provide water and sanitation to a community through a network to which individual households are connected. Basic systems are generally shared between several households.
- Water supply and sanitation in urban areas usually necessitates a network installation. To classify such projects consider the per capita cost of services. The per capita cost of water supply and sanitation through large systems is several times higher than that of basic services.

APPENDIX

ODA Coverage of Certain Conflict, Peace Building and Security Expenditures (Annex 5 of the DAC directives)

1. *Management of security expenditure*

Technical co-operation provided to government to improve civilian oversight and democratic control of budgeting, management, accountability and auditing of security expenditure, including military budgets, as part of a public expenditure management programme.

Note: As an example, providing technical co-operation to the army to introduce a new payroll system would not be eligible. But budgetary actions taken in order to improve democratic control of defence budgeting and as part of public expenditure management programmes would be eligible.

2. *Enhancing civil society's role in the security system*

Assistance to civil society to enhance its competence and capacity to scrutinise the security system so that it is managed in accordance with democratic norms and principles of accountability, transparency and good governance.

Note: This includes support to NGOs and other Civil Society Organisations, the media, universities, and research institutions. It excludes training in military skills. Assistance to the defence ministry or the armed forces as they are part of government, not civil society, is excluded.

3. *Child soldiers*

Technical co-operation provided to government – and assistance to civil society organisations – to support and apply legislation designed to prevent the recruitment of child soldiers. This excludes the costs of military operations against groups that may have recruited child soldiers.

Note: Assistance to improve educational or employment opportunities for children so as to discourage their recruitment as soldiers and build capacity (including advocacy) within civilian government and civil society to prevent children from becoming soldiers is eligible. Efforts to demobilise, disarm, reintegrate, repatriate and resettle (DDRRR) child soldiers are eligible. On the other hand, support to the armed forces themselves is not eligible. Assistance that contributes to the strengthening of the military or fighting capacity of the armed forces is excluded.

4. Security System Reform

Technical co-operation provided to parliament, government ministries, law enforcement agencies and the judiciary to assist review and reform of the security system to improve democratic governance and civilian control. Eligible assistance is limited to non-military competence/capacity building and strategic planning activities that promote political, institutional and financial accountability, civilian oversight, and transparency. Furthermore, any such support to defence ministries must be part of a national security system reform strategy and be approved by the partner country ministry with overall responsibility for co-ordination of external assistance.

5. Civilian peace-building, conflict prevention and conflict resolution

Support for civilian activities related to peace-building, conflict prevention and resolution, including capacity building, monitoring, dialogue and information exchange. This excludes engagement in military strategy and defence co-operation.

Note: In the event that civilian peace-building activities supported include disclosure of military strategy, such assistance is eligible except where military staff or ministry of defence officials benefit from such funding. Direct assistance to the defence ministry or the armed forces is excluded. However, assistance can indirectly be used by civilian organisations/authorities, excluding the ministry of defence, for participation by defence ministry or armed forces staff in the above activities.

6. Small arms and light weapons (SALW)

Technical co-operation to control, prevent and/or reduce the proliferation of Small Arms and Light Weapons (SALW). SALW activities under this directive are defined as:

- development of laws, regulations and administrative procedures for the control and reduction of weapons proliferation;*
- development of institutional structures for policy guidance, research and monitoring;*
- public awareness campaigns on SALW;*
- promotion of regional co-operation and information exchange on SALW programmes;*
- weapons collection and destruction. (Funding of action to seize arms by force is excluded. Engagement in weapons collection and destruction programmes by military personnel is excluded.)*

Assistance that contributes to the strengthening of the military or fighting capacity of the armed forces is excluded.
