**12-13 November 2007**

**Sala Biblioteca of CNEL (Consiglio Nazionale dell'Economia e del Lavoro)

Global Forum on Agriculture**

**This Forum is hosted by the Italian Ministry of Economy and Finance**

These four major international organisations are jointly holding a forum on African agricultural development and poverty reduction. This event is hosted by the Italian Ministry of Economy and Finance. The objectives are to disseminate and broaden the impact of new analytical work and to share reflections and deepen understanding on a number of constraints and policy issues of importance to the agricultural sector.

The Forum is timed to coincide with the release of World Bank's 2008 *World Development Report*, and newly available analysis from OECD, IFAD and FAO. Reactions to this work from African and international experts and open discussions with all participants will be key features of the Forum.

Information on logistics, agenda updates, presentations and participants will be posted on the forum website:
