This Survey is published on the responsibility of the Economic and Development Review Committee of the OECD, which is charged with the examination of the economic situation of member countries.

The economic situation and policies of the European Union were reviewed by the Committee on 28 May 2009. The draft report was then revised in the light of the discussions and given final approval as the agreed report of the whole Committee on 8 July 2009.

The Secretariat's draft report was prepared for the Committee by Nigel Pain and Jeremy Lawson under the supervision of Peter Hoeller. Research assistance was provided by Isabelle Duong.

The previous Survey of the European Union was issued in September 2007.
