

Barriers to Administrative Simplification in Egypt

Eng. Nevine Gamal – Projects Manager

Ministry of State for Administrative Development

Main Barriers

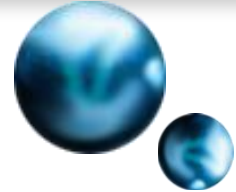

- Legal Complexity:
 - Huge number of government laws (contradiction – ambiguity).
- Lack of information, documentation of workflow cycles (no standards).
- Unskilled employees.
- Resistance for change.

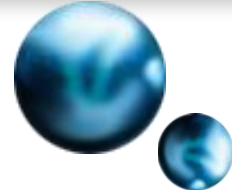

Main Barriers (Cont.)

- Lack of proper monitoring, performance evaluation and effective rewards/punishment
- Huge number of government entities.

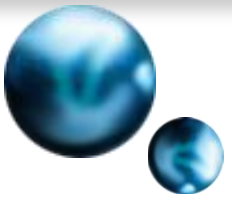

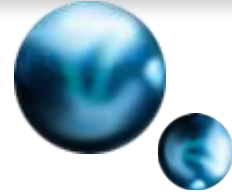

- Reduction and streamlining of regulations, by-laws.
- Process Reengineering for government services and the adoption of the one stop shop model.
- The use of ICT to minimize visits, paper work, and effort.
- Awareness.

An Example

- Supplier Registration in E-Tender: 
 - Previously:
 - Supplier register in each government entity.
 - Supplier must visit each entity to present his official papers.
 - Currently:
 - Supplier register online once for all government entities.
 - Supplier send his official papers once by fax.

Thank You...
