

## INVENTORY OF AGRICULTURAL POLICIES ADDRESSING ENVIRONMENTAL ISSUES IN AGRICULTURE – PUBLIC WEBSITE USERS' GUIDE

- The site has primarily been set up for use in *Internet Explorer* - it will also work in other applications, such as *Netscape*, but the format of the information under these applications may be different.
- The site may be accessed from the OECD internet website [www.oecd.org](http://www.oecd.org) . It is located on the site of the Directorate for Agriculture Food and Fisheries (Policies and Environment Division). The direct link to the inventory public website is <http://www2.oecd.org/agr-envdbo/index.asp> .
- There are three variables to specify when searching for information in the Inventory:
  - COUNTRY** -- Click either on "all", or click on a specific country. If you would like to select a few (but not all) countries, use "Ctrl-click".
  - ENVIRONMENTAL OBJECTIVE** -- Click "all", or select a particular objective. Note: the objectives may be selected according to (i) *general categories*, which are in capital letters - e.g. "ADDRESSING CLIMATE CHANGE" or (ii) the *sub-categories* that follow under each category - e.g. "Reduce Emissions, Sinks, Renewable Energy, Energy Efficiency".
  - TYPE OF MEASURE** -- Click "all", or select a particular measure.
- When you have finished the menu selection then click on the box labelled "**SUBMIT**". A summary of the search results will then appear in the window below. To view the information for *a particular policy*, either click on the title, or click on the icon to the right of the title. If you wish to view information for *all the policies listed*, click on the icon on the title bar at the top right-hand corner of the results window. To print selected results click on the "**Print Page**" icon.
- If you select and view a single policy, a click on the button "Close This Window" at the end of the description (or the clicking on the "X" box on the top right-hand corner of the page) brings you back to the list of selected policies.
- For a *new search* you just select a new combination of criteria (country, type of measure, environmental objective), and the former selection will be replaced by the new one.
- Please note: it will not be possible for countries to change existing information in the Inventory via the internet, but the Secretariat welcomes any suggestions regarding further information/amendments to the existing text by e-mail to: [vaclav.vojtech@oecd.org](mailto:vaclav.vojtech@oecd.org).
- In addition to the description of the specific programmes, which can be selected by the above mentioned search procedure, there is (or will be) also a *Contextual information* (see Annex 3) available for each country in the Inventory. To access to this document you need to double click on the specific country name in the window with the selected countries and programmes.
