

FATF-XX Events

under the Brazilian presidency

1 JULY 2008 - 30 JUNE 2009

(as at June 2009)

The FATF year begins in July and ends in June. During this period, the FATF holds three plenary meetings, a meeting of experts on typologies, and, depending on the focus of current work, inter-
sessional meetings and meetings of various ad hoc groups. The plenary meetings usually take place
in October, February and June of each year.

Most FATF Plenaries take place in the conference facilities of the OECD in Paris. The meeting of
experts on typologies takes place in November of each year and is usually now held jointly with a
FATF-style regional body in the country chosen by that body. All of these meetings are only open to
delegations from FATF members, observer jurisdictions and observer organisations. They are not
open to the public.

The calendar of events includes the major FATF meetings along with the meetings of other FATF-
style regional bodies and some international organisations that also deal with money laundering
issues.
