

Transport Statistics

Transport Statistics

Annual Transport Statistics

Purpose

To provide annual transport information presenting disaggregated statistical data in the transport sector.

Objectives and outputs

Data are collected in a harmonised way to facilitate comparisons between modes of transport and between countries by means of the Common Questionnaire developed jointly between three international organisations: Eurostat, ITF and UNECE.

Data cover topics such as investment, infrastructure, rolling stock, human resources, traffic and energy consumption for different inland transport modes.

Non-member countries involved in the activity:

Albania, Armenia, Azerbaijan, Belarus, Bosnia and Herzegovina, Bulgaria, Croatia, Georgia, Kazakhstan, Kyrgyzstan, Latvia, Liechtenstein, Lithuania, Macedonia, Malta, Moldova, Republic of Montenegro, Republic of Serbia, Romania, Russian Federation, Tajikistan, Turkmenistan, Ukraine, Uzbekistan

Databases

Transport Statistics - Common Questionnaire

Main Developments for 2011

General aspects:

ITF is developing a corporate database to integrate the information collected by means of the Common Questionnaire. The corporate database is planned to be ready towards the end of 2011.

Data collection:

Upgraded version of the WEB questionnaire

Transport Statistics

International Database of Taxes and Charges for Road Freight Transport

Purpose

To provide indicators for efficiency and impact on competition of taxes and charges for transport in order to allow international comparisons.

Objectives and outputs

The final report provides a framework for international comparisons and discusses the economic principles for efficient systems of taxation. It provides a basis for addressing the questions "what is the right level for transport taxes" and "what kinds of charges should be used".

Main Developments for 2011

General aspects:

No major changes.

Transport Statistics

Investment in Transport Infrastructure

Purpose

To provide an annual update of statistical information on transport infrastructure investment, for all ITF countries, on total gross investment and maintenance expenditure.

Objectives and outputs

After processing the data, quality checks were carried out to select reliable time series to be made available on the web site along with a short analysis of trends.

Non-member countries involved in the activity:

Albania, Armenia, Azerbaijan, Belarus, Bosnia and Herzegovina, Bulgaria, Croatia, Georgia, Latvia, Liechtenstein, Lithuania, Macedonia, Malta, Moldova, Republic of Montenegro, Republic of Serbia, Romania, Russian Federation, Ukraine

Databases

Investment in Transport Infrastructure

Main Developments for 2011

General aspects:

Data quality was improved by using more appropriated deflators when available.

Transport Statistics

Quarterly Transport Statistics

Purpose

To provide harmonised information on selected basic quarterly indicators in order to compare the latest inland transport trends between countries.

Objectives and outputs

To publish results every three months on the ITF web site, on a country by country basis with 4-5 months lag maximum (data for the first quarter is collected in June and published in July). Available series cover good transport in T-km, passenger transport in P-Km, road traffic in V-Km, brand new vehicles registration, car fuel consumption, road fatalities, imports and exports at current prices and industrial production.

Country by country data tables are available, as well as graphs showing trends for both individual countries and selected groups of countries.

Non-member countries involved in the activity:

Albania, Armenia, Azerbaijan, Belarus, Bosnia and Herzegovina, Bulgaria, Croatia, Georgia, Latvia, Lithuania, Macedonia, Malta, Moldova, Republic of Montenegro, Republic of Serbia, Romania, Russian Federation, Ukraine

Databases

Short-term trends survey

Main Developments for 2011

General aspects:

Starting with the publication of the 2nd quarter of 2009 results, an analytical report based on seasonally adjusted data is published each quarter published with the data on the ITF WEB site.

Information on air and maritime transport are integrated in the analysis to provide a global view on the transport activity.

Transport Statistics

Transport Sector Trends Analysis

Purpose

To provide a first analysis of both passenger and freight transport trends, as well as road accident trends. A short list of selected indicators are collected for that purpose.

Objectives and outputs

To publish an analysis of the transport situation in different geographical regions. The publication also gives the latest statistics on the situation of the transport market in ITF countries and presents charts which help to show what changes have occurred since 1970.

Because it is published earlier than any other comparable study, this report provides first-hand figures about passenger and freight transport as well as road accidents.

Since 2008 the publication also includes information on investment and maintenance expenses in transport infrastructures.

Non-member countries involved in the activity:

Albania, Armenia, Azerbaijan, Belarus, Bosnia and Herzegovina, Bulgaria, Croatia, Georgia, Latvia, Liechtenstein, Lithuania, Macedonia, Malta, Moldova, Republic of Montenegro, Republic of Serbia, Romania, Russian Federation, Serbia and Montenegro, Ukraine

Databases

Trends in the Transport Sector - Leaflet

Main Developments for 2011

General aspects:

The publication covers all transport modes including maritime and air as well as investment and maintenance expenses on transport infrastructures.
