

Aid in Support of Environment 2007-2008

Canada

Average commitments for 2007-2008, unless otherwise shown

Investment in environment is necessary for improving economic, social and political conditions in developing countries within the framework of sustainable development.

An activity can target environment as a "principal objective" or "significant objective". Principal means environment was an explicit objective of the activity and fundamental in its design. Significant means environment was an important, but secondary, objective of the activity. Not targeted means that the activity was screened for promoting environment, but was not found to have targeted it.

Not all activities have been screened against the environment marker: the coverage ratio for sector-allocable activities is 92%.

Aid to Environment, commitments

	USD million, current prices	
	2007	2008
Environment as a sector	27	11
Other activities scored "principal objective"	11	10
"significant objective"	86	95
