

## **PART C Other ICT statistics material**

### **ICT compendium releases**

If you have the information readily available, please provide references to such outputs or provide the outputs themselves as URLs or emailed as attached files.

Indicators for the information society describe the infrastructure, the production and the use of information and communication technologies (ICT) in the various areas of society (households, enterprises, education/training etc). These indicators are regularly updated and expanded on the SFSO website :
