PEB - OECD Programme on Educational Building
Maximising your country's investment in educational facilities

Programme on Educational Building (PEB)

1. Innovation in design to meet educational needs.
2. Evaluation of procurement policy and practice.
3. School safety and security.

Work in 2009-10 will include:

Analysis of facilities used by universities and their regional partners

On-demand

Short-term

Project start-ups
with partners

Facilities Review

- Aim: to identify and analyse issues
- Assemble case studies
- Review policies
- Bring expertise together

Facilities Review

- Evaluation and indicators
- Good practice examples
- Review links with policy (National, regional, local)
- Explore issues such as: location, type of space and infrastructure, change: flexibility and adaptability
- Group of experts
- Peer review

Thank you!
