International Search Conference on

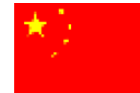

Governance, Financing and Quality Assurance of Higher Education in China and Switzerland

17th - 18th April 2007 in Zurich, Switzerland

Hosted by ETH Zurich

CONFERENCE PROGRAMME

The aim of this Search Conference is to create a conversation space for researchers, working in the field of higher education, to meet and to identify current and future issues – regarding governance, quality and financing of higher education – which might impact on the quality and contributions of higher education to the overall development of the country.

This discussion and ensuing list of issues could be used to inform the general public and interested academics on the potential challenges confronting the higher education sector in the coming decade. It will also form the background knowledge for different joint research projects between Chinese and Swiss research groups in 2007.

This Search Conference is part of a larger cooperation project on higher education coordinated by the Directorate for Education of the Organisation for Economic Cooperation and Development (OECD) to “initiate a long term collaboration and dialogue between Chinese and Swiss Higher Education institutions (HEIs) and national agencies on policy issues of mutual interests in the domain of governance, with a special focus on financing and quality assurance in education”. This cooperation project was approved by the Swiss State Secretariat for Education and Research in 2004.

Dates: Tuesday, 17th April 2007, 09:00 – 18:15
Wednesday, 18th April 2007, 09:00 – 16:05

Location: ETH Zurich, Room: Semper Aula

Organisers: Organised by CSEND (Centre for Socio-Eco-Nomic Development) and ETH Zurich (Federal Institute of Technology, Zurich) under the auspices of the SER (State Secretariat for Education and Research) and the OECD (Organisation for Economic Cooperation and Development).

Monday, 23rd April 2007 (limited number of participants)

Building on the outcome of the preceding Search Conference, discussions will be held between the Chinese delegation and interested Swiss research partners in a Planning Workshop. Objectives of this Planning Workshop are: (1) identification of 2-3 joint research projects, (2) identification of 2-3 potential joint research teams, and (3) formulation of respective work plans and agreement on a timetable. Results and findings of these joint research projects will be presented at a follow up conference in Beijing in 2007/2008. This conference will be organised under the auspice of the China-OECD Programme by the Chinese Ministry of Education.
