REPORTING DIRECTIVES FOR THE CREDITOR REPORTING SYSTEM – ADDENDUM 4

EXTENDING AGENCY

Text to replace current paragraph 32 of the Directives

1. Each reporting country or multilateral organisation has its own donor code. DAC members are requested to indicate, in addition, the extending agency. The extending agency is the government entity (central, state or local government agency or department) financing the activity from its own budget. It is the budget holder, controlling the activity on its own account. Agencies administering activities on behalf of other government entities should not be reported as extending agencies but as channels of delivery.
