

ENVIRONMENTAL PERFORMANCE OF AGRICULTURE IN OECD COUNTRIES SINCE 1990:

Table of Contents

This Table of Contents is related to the OECD publication (2008) *Environmental Performance of Agriculture in OECD countries since 1990* which is available at:
<http://www.oecd.org/tad/env/indicators>

Table of Contents

I. Highlights	15
Overall agri-environmental performance.	15
Agri-environmental performance in specific areas	16
Caveats and limitations	19
Matching indicator criteria.	20
II. Background and Scope of the Report.	23
1. Objectives and scope.	23
2. Data and information sources.	24
3. Progress made since the OECD 2001 Agri-environmental Indicator Report	25
4. Structure of the Report	26
Bibliography	28
Annex II.A1. List of indicators in Chapter 1	29
Annex II.A2. Indicators in Chapter 1 assessed according to the OECD indicator criteria	31
Chapter 1. OECD Trends of Environmental Conditions related to Agriculture since 1990	37
1.1. Agricultural production and land	38
1.1.1. Introduction	39
1.1.2. Agricultural production	39
1.1.3. Agricultural land use.	40
1.1.4. Linkages between agricultural production and land use.	46
Bibliography	47
1.2. Nutrients	48
1.2.1. Nitrogen balance	52
1.2.2. Phosphorus balance	56
1.2.3. Regional (sub-national) nutrient balances.	60
Bibliography	62
1.3. Pesticides	63
1.3.1. Pesticide use	63
1.3.2. Pesticide risk indicators	67
Bibliography	74
1.4. Energy	76
Bibliography	83
1.5. Soil.	84
Bibliography	90

1.6. Water.....	92
1.6.1. Water use	93
1.6.2. Water quality	100
Bibliography	108
1.7. Air	109
Background	110
1.7.1. Ammonia emissions, acidification and eutrophication.....	110
1.7.2. Methyl bromide use and ozone depletion	117
1.7.3. Greenhouse gas emissions and climate change	122
Bibliography	130
1.8. Biodiversity	133
Background	134
1.8.1. Genetic diversity	136
1.8.2. Wild species diversity	146
1.8.3. Ecosystem diversity.....	148
Bibliography	159
1.9. Farm management	160
1.9.1. Overview of environmental farm management	163
1.9.2. Nutrient management	163
1.9.3. Pest management	168
1.9.4. Soil management.....	169
1.9.5. Water management.....	172
1.9.6. Biodiversity management	173
1.9.7. Organic management	174
Bibliography	176
Chapter 2. OECD Progress in Developing Agri-environmental Indicators	179
2.1. Introduction.....	180
2.2. Progress in developing OECD Agri-environmental Indicators	180
2.2.1. Soil: Erosion, biodiversity and soil organic carbon	180
2.2.2. Water: Use and water quality	184
2.2.3. Biodiversity: Genetic, wild species and ecosystem diversity	188
2.2.4. Land: Landscapes and ecosystem functions	192
2.2.5. Farm management	195
2.3. Overall assessment.....	196
Annex 2.A1. Agri-environmental Indicators of Regional Importance and/or under Development.....	200
Annex 2.A2. A Qualitative Assessment of the Agri-environmental Indicators included in Annex 2.A1 according to the OECD Indicator Criteria	202
Bibliography	207
Chapter 3. OECD Country Trends of Environmental Conditions related to Agriculture since 1990	209
Background to the country sections	210
3.1. Australia	212
3.2. Austria	224
3.3. Belgium.....	234
3.4. Canada	243

3.5. Czech Republic	256
3.6. Denmark.....	269
3.7. Finland	284
3.8. France	296
3.9. Germany	305
3.10. Greece.....	313
3.11. Hungary	324
3.12. Iceland	336
3.13. Ireland.....	344
3.14. Italy	357
3.15. Japan.....	366
3.16. Korea.....	377
3.17. Luxembourg.....	386
3.18. Mexico.....	393
3.19. Netherlands	402
3.20. New Zealand	413
3.21. Norway	423
3.22. Poland.....	433
3.23. Portugal.....	448
3.24. Slovak Republic	459
3.25. Spain.....	472
3.26. Sweden.....	486
3.27. Switzerland	498
3.28. Turkey.....	507
3.29. United Kingdom	522
3.30. United States	532
3.31. European Union.....	545
Chapter 4. Using Agri-environmental Indicators for Policy Analysis	551
4.1. Policy context to OECD agri-environmental performance	552
4.2. Tracking agri-environmental performance.....	554
4.2.1. Evolution of Agri-environmental Indicators to track sustainable development.....	554
4.2.2. Tracking national agri-environmental performance	556
4.2.3. International reporting on environmental conditions in agriculture	559
4.2.4. Non-governmental organisations (NGOs)	561
4.3. Using Agri-environmental Indicators for policy analysis	562
4.3.1. OECD member countries	563
4.3.2. International governmental organisations	565
4.3.3. Research community	567
4.4. Knowledge gaps in using Agri-environmental Indicators.....	568
Bibliography	571
List of boxes	
II.1. OECD Expert Meetings on Agri-environmental Indicators: 2001-04	25
1.7.1. Towards a net agricultural greenhouse gas balance indicator?.....	123

1.8.1. Defining agricultural biodiversity	134
2.1. Soil biodiversity in agricultural land	182
2.2. Agricultural livestock pathogens and water pollution	187
2.3. The impact of agriculture on aquatic ecosystems.	188
4.1. Main agri-environmental measures in OECD countries.	553
4.2. Selected international and regional environmental agreements relevant to agriculture.	555

List of tables

1.1.1. OECD and world agricultural production	39
1.1.2. OECD and world agricultural exports	40
1.3.1. Germany: Percentage risk indices	70
1.7.1. Total OECD emissions of acidifying pollutants	114
1.7.2. Ammonia emission targets to 2010 under the Convention on Long-range Transboundary Air Pollution.	116
1.7.3. Methyl bromide use and progress in meeting the phase-out schedule under the <i>Montreal Protocol</i>	120
1.7.4. Critical Use Exemptions (CUEs) for methyl bromide agreed under the <i>Montreal Protocol</i> for 2005.	121
1.7.5. Total OECD gross greenhouse gas emissions	124
1.7.6. Main sources and types of gross greenhouse gas emissions	127
1.8.1. Area of transgenic crops for major producing countries	139
1.8.2. Plant genetic resource conservation activities for OECD countries	139
1.8.3. Livestock genetic resource conservation activities for OECD countries.	144
1.8.4. Share of farm woodland in agricultural land area.	157
1.8.5. Share of farm fallow in agricultural land area	157
1.9.1. Countries recording adoption of environmental farm management practices	164
1.9.2. Overview of farmer incentives to adopt environmental farm management practices	166
2.1. Net water balance in a Japanese rice field irrigation system: 2003.	185

List of figures

II.1. The Driving Force-State-Response framework: Coverage of indicators	24
1.1.1. Production, yields and area harvested and future projections for selected commodities and OECD countries	41
1.1.2. Volume of total agricultural production	43
1.1.3. Share of agricultural land use in the national land area	44
1.1.4. Agricultural land area	45
1.1.5. Agricultural production volume index and agricultural land area	46
1.2.1. Main elements in the OECD gross nutrient (nitrogen and phosphorus) balance calculation	50
1.2.2. Gross nitrogen balance estimates	51
1.2.3. Gross nitrogen balances for selected OECD countries	53
1.2.4. Inorganic nitrogen fertilisers and livestock manure nitrogen input in nitrogen balances.	54

1.2.5. Agricultural use of inorganic nitrogen and phosphate fertilisers	54
1.2.6. Contribution of the main sources of nitrogen inputs and outputs in nitrogen balances	56
1.2.7. Nitrogen efficiency based on gross nitrogen balances	57
1.2.8. Gross phosphorus balance estimates	58
1.2.9. Gross phosphorus balance for selected OECD countries	59
1.2.10. Contribution of the main sources of phosphorus inputs and outputs in phosphorus balances	60
1.2.11. Phosphorus efficiency based on phosphorus balances	61
1.2.12. Spatial distribution of nitrogen balances in Canada and Poland	62
1.3.1. Pesticide use in agriculture	65
1.3.2. Pesticide use for selected OECD countries	66
1.3.3. Belgium: Risk for aquatic species due to use of pesticides in arable land, horticulture and outside of agriculture	69
1.3.4. Denmark: The annual trend in frequency of pesticide application	70
1.3.5. The Netherlands: Potential chronic effects scores for aquatic and terrestrial organisms and leaching into groundwater	71
1.3.6. Norway: Trends of health risk, environmental risk and sales of pesticides	72
1.3.7. Sweden: National level pesticide risk indicators and the number of hectare doses	73
1.3.8. United Kingdom (England and Wales): Total area of pesticide applications	74
1.4.1. Simplified energy “model” of an agricultural system	78
1.4.2. Direct on-farm energy consumption	79
1.4.3. Direct on-farm energy consumption for selected OECD countries	80
1.4.4. Agricultural employment and farm machinery use	81
1.4.5. Composition of on-farm energy consumption in the EU15 and the United States	82
1.5.1. Agricultural land area classified as having moderate to severe water erosion risk	87
1.5.2. Trends in agricultural land area classified as having moderate to severe water erosion risk	88
1.5.3. Agricultural land area classified as having moderate to severe wind erosion risk	89
1.6.1. Agricultural water use	95
1.6.2. Share of national water use in annual freshwater resources and share of agricultural water use in national use	96
1.6.3. Irrigated area, irrigation water use and irrigation water application rates	97
1.6.4. Share of agricultural groundwater use in total groundwater use, and total groundwater use in total water use	99
1.6.5. Share of agriculture in total emissions of nitrates and phosphorus in surface water	102
1.6.6. Share of agriculture in total emissions of nitrates and phosphorus in coastal water	103
1.6.7. Share of monitoring sites in agricultural areas exceeding national drinking water limits for nitrates and phosphorus in surface water	104
1.6.8. Share of monitoring sites in agricultural areas exceeding national drinking water limits for nitrates in groundwater	105

1.6.9.	Share of monitoring sites in agricultural areas where one or more pesticides are present in surface and groundwater	106
1.6.10.	Share of monitoring sites in agricultural areas exceeding national drinking water limits for pesticides in surface water and groundwater	107
1.7.1.	Impacts of agriculture on air quality: Multi-pollutants, multi-effects	110
1.7.2.	Ammonia emissions from agriculture	112
1.7.3.	Emissions of acidifying airborne pollutants for the EU15, US and OECD.	113
1.7.4.	Agricultural ammonia emission trends for selected OECD countries	114
1.7.5.	Share of the main sources of agricultural ammonia emissions in OECD countries	117
1.7.6.	Methyl bromide use	119
1.7.7.	Global methyl bromide use by major sectors.	121
1.7.8.	Agricultural gross greenhouse gas emissions	125
1.7.9.	Gross agricultural greenhouse gas emissions in carbon dioxide equivalent for selected OECD countries	126
1.7.10.	Agricultural production and agricultural greenhouse gas emissions.	128
1.7.11.	Main sources of methane and nitrous oxide emissions in OECD agriculture	129
1.7.12.	Contribution of main sources in agricultural greenhouse gas emissions	130
1.8.1.	OECD agri-biodiversity indicators framework	135
1.8.2.	Change in the number of plant varieties registered and certified for marketing	137
1.8.3.	Change in the share of the one-to-five dominant crop varieties in total marketed crop production	138
1.8.4.	Change in the number of livestock breeds registered and certified for marketing	141
1.8.5.	Change in the share of the three major livestock breeds in total livestock numbers.	142
1.8.6.	Total number of cattle, pigs, poultry and sheep in endangered and critical risk status and under conservation programmes	143
1.8.7.	Share of selected wild species that use agricultural land as primary habitat.	148
1.8.8.	Population trends of farmland birds	149
1.8.9.	Change in agricultural land use and other uses of land.	152
1.8.10.	Permanent pasture and arable and permanent cropland	155
1.8.11.	Share of arable and permanent cropland, permanent pasture and other agricultural land in total agricultural land area.	156
1.8.12.	Share of national Important Bird Areas where intensive agricultural practices pose a serious threat or a high impact on the areas' ecological functions	158
1.9.1.	OECD farm management indicator framework	162
1.9.2.	Share of agricultural land area under nutrient management plans.	168
1.9.3.	Share of total number of farms under nutrient management plans	169
1.9.4.	Share of total number of farms using soil nutrient testing	170
1.9.5.	Share of total arable and permanent crop area under integrated pest management.	171
1.9.6.	Share of arable crop area under soil conservation practices	172
1.9.7.	Share of total arable and permanent crop area under all-year vegetative cover	173
1.9.8.	Share of irrigated land area using different irrigation technology systems	174

1.9.9. Share of agricultural land area under biodiversity management plans	175
1.9.10. Share of agricultural land area under certified organic farm management	176
2.1. Canadian soil organic carbon stocks in agricultural soils by different classes	183
2.2. United States soil organic carbon stocks in agricultural soils by different classes	184
2.3. Agricultural, industrial, and household water charges	186
2.4. National crop varieties that are endangered	189
2.5. National crop varieties that are not at risk.	190
2.6. Edge density of agricultural fields in Finland.	190
2.7. Share of Canadian farmland in various classes of the habitat capacity index.	191
2.8. Cultural landscape features on agricultural land	193
2.9. Water retaining capacity of agriculture	194
2.10. Water retaining capacity for agricultural facilities	195
2.11. Share of farmers participating in agri-environmental education programmes	197
3.1.1. National agri-environmental and economic profile, 2002-04: Australia	212
3.1.2. National agri-environmental performance compared to the OECD average.	220
3.1.3. National Landcare membership.	220
3.1.4. Annual quantities of insecticide and acaricide applied to the cotton crop	220
3.2.1. National agri-environmental and economic profile, 2002-04: Austria	224
3.2.2. National agri-environmental performance compared to the OECD average.	231
3.2.3. Area under non-use of inputs, organic farming and erosion control measures of the ÖPUL agri-environmental programme.	231
3.2.4. Greenhouse gas emissions from agriculture	231
3.3.1. National agri-environmental and economic profile, 2002-04: Belgium	234
3.3.2. National agri-environmental performance compared to the OECD average.	240
3.3.3. Total pesticide use	240
3.3.4. Greenhouse gas emissions and sinks	240
3.4.1. National agri-environmental and economic profile, 2002-04: Canada	243
3.4.2. National agri-environmental performance compared to the OECD average.	252
3.4.3. Share of cropland in different soil organic carbon change classes.	252
3.4.4. Share of farmland in different wildlife habitat capacity change classes.	252
3.5.1. National agri-environmental and economic profile, 2002-04: Czech Republic	256
3.5.2. National agri-environmental performance compared to the OECD average.	265
3.5.3. Share of samples above Czech drinking water standards for nitrates in surface water	265
3.5.4. Monitored numbers of partridge population	265
3.6.1. National agri-environmental and economic profile, 2002-04: Denmark	269
3.6.2. National agri-environmental performance compared to the OECD average.	280
3.6.3. Share of monitoring sites with occurrences of pesticides in groundwater used for drinking	280
3.6.4. Share of meadows and dry grasslands, heath, and bogs and marshes in the total land area	280
3.7.1. National agri-environmental and economic profile, 2002-04: Finland	284
3.7.2. National agri-environmental performance compared to the OECD average.	292
3.7.3. Nitrogen fluxes in the Paimionjoki river and agricultural nitrogen balances	292

3.7.4. Population trends of Finnish farmland butterflies in three ecological species groups.	292
3.8.1. National agri-environmental and economic profile, 2002-04: France.	296
3.8.2. National agri-environmental performance compared to the OECD average.	302
3.8.3. Trends in key agri-environmental indicators.	302
3.8.4. Trends in key agri-environmental indicators.	302
3.9.1. National agri-environmental and economic profile, 2002-04: Germany	305
3.9.2. National agri-environmental performance compared to the OECD average.	310
3.9.3. Share of the number of farms and Utilised Agricultural Area (UAA) under organic farming.	310
3.9.4. Share of renewable biomass and energy crop area in the total agricultural land area	310
3.10.1. National agri-environmental and economic profile, 2002-04: Greece	313
3.10.2. National agri-environmental performance compared to the OECD average.	321
3.10.3. Irrigated area and irrigation water application rates	321
3.10.4. <i>Ex situ</i> accessions of plant landraces, wild and weedy relatives.	321
3.11.1. National agri-environmental and economic profile, 2002-04: Hungary.	324
3.11.2. National agri-environmental performance compared to the OECD average.	333
3.11.3. Agricultural land affected by various classes of water erosion	333
3.11.4. Support payments for agri-environmental schemes and the number of paid applications.	333
3.12.1. National agri-environmental and economic profile, 2002-04: Iceland	336
3.12.2. National agri-environmental performance compared to the OECD average.	342
3.12.3. Annual afforestation	342
3.12.4. Annual area of wetland restoration.	342
3.13.1. National agri-environmental and economic profile, 2002-04: Ireland	344
3.13.2. National agri-environmental performance compared to the OECD average.	353
3.13.3. River water quality	353
3.13.4. Population changes for key farmland bird populations	353
3.14.1. National agri-environmental and economic profile, 2002-04: Italy.	357
3.14.2. National agri-environmental performance compared to the OECD average.	363
3.14.3. Actual soil water erosion risk.	363
3.14.4. Regional change in agricultural land area: 1990 to 2000.	363
3.15.1. National agri-environmental and economic profile, 2002-04: Japan	366
3.15.2. National agri-environmental performance compared to the OECD average.	373
3.15.3. National water retaining capacity of agriculture.	373
3.15.4. Share of eco-farmers in the total number of farmers.	373
3.16.1. National agri-environmental and economic profile, 2002-04: Korea	377
3.16.2. National agri-environmental performance compared to the OECD average.	383
3.16.3. Composition of soils	383
3.16.4. National water retaining capacity of agriculture.	383
3.17.1. National agri-environmental and economic profile, 2002-04: Luxembourg	386
3.17.2. National agri-environmental performance compared to the OECD average.	391
3.17.3. Nitrate and phosphorus concentration in river sampling stations.	391
3.17.4. Agricultural land under agri-environmental schemes	391
3.18.1. National agri-environmental and economic profile, 2002-04: Mexico	393
3.18.2. National agri-environmental performance compared to the OECD average.	399

3.18.3. Trends in key agri-environmental indicators	399
3.18.4. Trends in key agri-environmental indicators	399
3.19.1. National agri-environmental and economic profile, 2002-04: Netherlands	402
3.19.2. National agri-environmental performance compared to the OECD average	409
3.19.3. Annual mean concentrations of nitrogen and phosphorus in surface water of rural and agricultural water catchments	409
3.19.4. Farmland bird populations	409
3.20.1. National agri-environmental and economic profile, 2002-04: New Zealand	413
3.20.2. National agri-environmental performance compared to the OECD average	420
3.20.3. Sectoral use of pesticides: 2004	420
3.20.4. Dairy cattle enteric methane emissions per litre of milk	420
3.21.1. National agri-environmental and economic profile, 2002-04: Norway	423
3.21.2. National agri-environmental performance compared to the OECD average	430
3.21.3. National sales of pesticides	430
3.21.4. Net change in agricultural land for five counties	430
3.22.1. National agri-environmental and economic profile, 2002-04: Poland	433
3.22.2. National agri-environmental performance compared to the OECD average	444
3.22.3. Agriculture and forest land at risk to erosion	444
3.22.4. Index of population trends of farmland birds	444
3.23.1. National agri-environmental and economic profile, 2002-04: Portugal	448
3.23.2. National agri-environmental performance compared to the OECD average	456
3.23.3. Numbers of local breeds under <i>in situ</i> conservation programmes: 2006	456
3.23.4. Relation between land use and Designated Nature Conservation Areas (DNCA): 2004	456
3.24.1. National agri-environmental and economic profile, 2002-04: Slovak Republic . .	459
3.24.2. National agri-environmental performance compared to the OECD average	468
3.24.3. Agricultural methane (CH ₄) and nitrous oxide (N ₂ O) emissions	468
3.24.4. Share of agricultural land under different types of protected areas: 2003	468
3.25.1. National agri-environmental and economic profile, 2002-04: Spain	472
3.25.2. National agri-environmental performance compared to the OECD average	482
3.25.3. Area of organic farming	482
3.25.4. Share of Dehesa area in total land area for five regions	482
3.26.1. National agri-environmental and economic profile, 2002-04: Sweden	486
3.26.2. National agri-environmental performance compared to the OECD average	494
3.26.3. Losses of nutrients from arable areas and the root zone	494
3.26.4. Cultural features on arable land	494
3.27.1. National agri-environmental and economic profile, 2002-04: Switzerland	498
3.27.2. National agri-environmental performance compared to the OECD average	504
3.27.3. Support for agricultural semi-natural habitats	504
3.27.4. Input/output efficiency of nitrogen, phosphorous and energy in agriculture . . .	504
3.28.1. National agri-environmental and economic profile, 2002-04: Turkey	507
3.28.2. National agri-environmental performance compared to the OECD average	518
3.28.3. Trends in key agri-environmental indicators	518
3.28.4. Trends in key agri-environmental indicators	518
3.29.1. National agri-environmental and economic profile, 2002-04: United Kingdom	522
3.29.2. National agri-environmental performance compared to the OECD average	528

3.29.3. Agri-environmental trends	528
3.29.4. Greenhouse gas emission trends and projections.	528
3.30.1. National agri-environmental and economic profile, 2002-04: United States.	532
3.30.2. National agri-environmental performance compared to the OECD average.	540
3.30.3. Soil erosion on cropland	540
3.30.4. Change in palustrine and estuarine wetlands on non-federal land and water area	540
3.31.1. National agri-environmental and economic profile, 2002-04: European Union (15)	545
3.31.2. EU15 agri-environmental performance compared to the OECD average.	548
3.31.3. Agri-environmental trends, EU15	548
3.31.4. Agri-environmental trends, EU15	548
