

CDM Moroccan story

Introduction

- Prompt start after Marrakech Accords
- Immediate establishment of DNA in 2002
- UNDP UNEP funding

Acheived objectives

- Workshops seminars, awareness
- Capacity and expertise building
- Elaboration of PDD
- 3 registered projects
- Many projects in pipeline
- Website: www.cdmmorocco.ma
- Conclusion of 7 MoU

Barriers

- CDM spirit missing : bilateral projects
- Uncertainty on transaction cost and benefit
- Visibility after 2012
- Only one project is suffering from EB procedures
- Mostly internal barriers

Internal barriers

- Lack of time and HR
- Lack of will to invest in EE
- Few and confusing offers for package propositions
- Difficulties with integrated approach when many stakeholders involved

Steps forward

- Report to PM for more political will
- Self production of RE up to 50 MW
- Unique CDM partner for local authorities for landfill projects
- Looking for bilateral action
