The OECD has implemented a new database browser: **OECD.Stat**. Now, our Main Economic Indicators (MEI) are *updated continuously*; you are able to access more data and export time series to Excel.

Please find your topic of interest from the list below and click.

All MEI data previously published by subject in individual PDF files can still be obtained in one large file which contains all subjects at: <http://www.oecd.org/dataoecd/43/20/35827900.pdf>
