SESSION 3: INVESTOR EDUCATION

**Mr. Toshitsugu Shimizu, Executive Officer,
Tokyo Stock Exchange**

Financial Education conducted by Tokyo Stock Exchange (TSE)

- Activities by TSE Academy -

October 28, 2005

Toshitsugu Shimizu

Executive Officer

Tokyo Stock Exchange, Inc.

1.Necessity of Financial Education in Japan

●Background

- Cash & deposits account for 50% of individuals' financial assets, compared with only 14% in securities
- Drastic changes in financial, labor, and social welfare systems
- Introduction of Pay-off system and 401k pension plan
- Interest rates at zero level
- Lack of financial and investment literacy

1-1. Necessity of Financial Education in Japan

● **Current status of school education**

- In the social studies field, time is spent on teaching history and geography, but not on economy or financial planning
- Lack of skilled teachers for financial education

1-2.Necessity of Financial Education in Japan

● Policy changes by the government

○ “From savings to investment” campaign

◇ Collaborative effort by the Cabinet, Ministry of Education, Culture, Sports, Science and Technology (MEXT), and the Financial Services Agency to promote economic education

➡ Development and implementation of systematic programs on economic and financial education

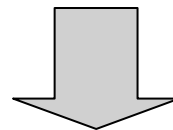

➡ Development of “train the trainers” program

◇ Tax benefits to capital gain and dividend in securities investment (10%)

1-3. Necessity of Financial Education in Japan

● Changes in financial management by individuals

- Shifting assets into risk-oriented financial instruments
- Increasing the number of individual investors
- Growing awareness of necessity of investment understanding

Established TSE Academy to promote economic/ financial education

2. Establishment of TSE Academy

Background

- ◆ TSE Academy was established to expand financial education for individuals as well as school teachers and students in April 2004.

Concepts and characteristics of TSE Academy

● For individuals

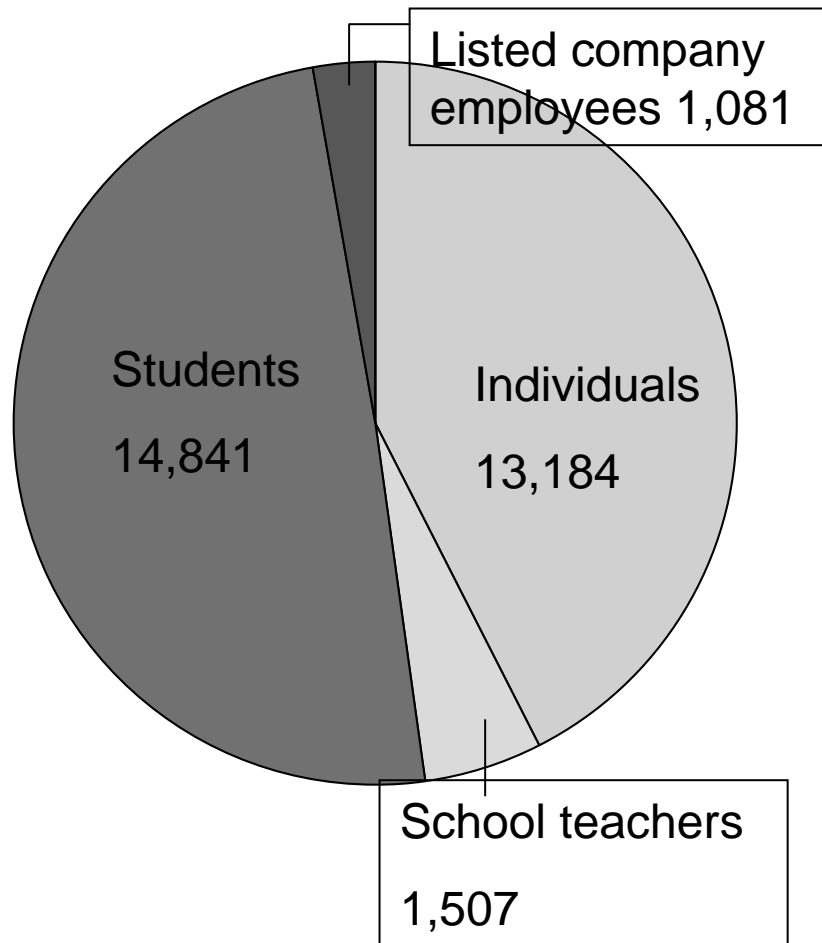

- ◆ Curriculum that places an emphasis on neutrality
- ◆ Support for participants who endeavor to learn on their own
 - Giving step by step curricula
 - Make preparation and review possible by utilizing multiple lectures, check lists, and Q&A by e-mail
 - Integrating the opinions of participants as much as possible

● For school teachers & students

Elaborated lectures in accordance with needs of respective schools

3. Participation by Target Group

Participation by target participant (number of persons)

- Totally 30,613 people attended from opening of Academy 2004 and September 2005
- Increased by 61% (5,186 persons) from April and September 2004
