Annex. Decomposition of the Change in the Average Tax Wedge	48

Part I

INTERNATIONAL COMPARISONS

Tax Burdens, 2010 estimates	80
I.1. Income tax plus employee and employer contributions less cash benefits	
Table. By family-type and wage level (as % of labour costs), 2010	86
Figure. By family type (as% of labour costs), 2010	87
I.2. Income tax plus employee contributions	
Table. By family-type and wage level (as % of gross wage earnings), 2010	88
Figure. By family type (as % of gross wage earnings), 2010	89
I.3. Income tax plus employee contributions less cash benefits	
Table. By family-type and wage level (as % of gross wage earnings), 2010	90
Figure. by family type (as % of gross wage earnings), 2010	91
I.4. Income tax	
Table. By family-type and wage level (as % of gross wage earnings), 2010	92
Figure. By family type (as % of gross wage earnings), 2010	93
I.5. Employee contributions	
Table. By family-type and wage level (as % of gross wage earnings), 2010	94
Figure. By family type (as % of gross wage earnings), 2010	95
I.6. Marginal rate of income tax plus employee and employer contributions less cash benefits	
Table. By family-type and wage level (as % of labour costs), 2010	96
Figure. By family type (as % of labour costs), 2010	97

I.7.	Marginal rate of income tax plus employee contributions less cash benefits	
	Table. By family-type and wage level (as % of gross wage earnings), 2010	98
	Figure. By family type (as % of gross wage earnings), 2010	99
I.8.	Increase in net income after 1% increase in gross wage earnings	
	Table. By family-type and wage level (%), 2010	100
I.9.	Increase in net income after 1% increase in labour costs	
	Table. By family-type and wage level (%), 2010	101
I.10.	Annual gross wage and net income	
	Table. By family-type and wage level (in US dollars using PPP), 2010	102
I.11.	Annual labour costs and net income	
	Table. By family-type and wage level (in US dollars using PPP), 2010	104
	Graphical exposition of the 2010 estimated tax burden	106
	Tax Burdens, 2009 definitive results	143
I.12.	Income tax plus employee and employer contributions less cash benefits, by family-type and wage level (as % of labour costs), 2009	146
I.13.	Income tax plus employee contributions, by family-type and wage level (as % of gross wage earnings), 2009	147
I.14.	Income tax plus employee contributions less cash benefits, by family-type and wage level (as % of gross wage earnings), 2009	148
I.15.	Income tax, by family-type and wage level (as % of gross wage earnings), 2009	149
I.16.	Employee contributions, by family-type and wage level (as % of gross wage earnings), 2009	150
I.17.	Marginal rate of income tax plus employee and employer contributions less cash benefits, by family-type and wage level (as % of labour costs), 2009	151
I.18.	Marginal rate of income tax plus employee contributions less cash benefits, by family-type and wage level (as % of gross wage earnings), 2009	152
I.19.	Increase in net income after 1% increase in gross wage earnings, by family-type and wage level (%), 2009	153
I.20.	Increase in net income after 1% increase in labour costs, by family-type and wage level (%), 2009	154
I.21.	Annual gross wage and net income, by family-type and wage level (in US dollars using PPP), 2009	155
I.22.	Annual labour costs and net income, by family-type and wage level (in US dollars using PPP), 2009	157

Part II

TAX BURDEN TRENDS 2000-2010

1. Historical trends	160
2. Important trends	160
3. Tax wedge	160
4. Average income tax rate	161
5. Net personal average tax rate	162
6. Progressivity	163
7. Families	164
II.1a. Evolution of the tax burden, 2000-2010: Single persons without children at 67% of average earnings – Income tax plus employee and employer contributions less cash benefits as a % of labour costs	165
II.1b. Evolution of the tax burden, 2000-2010: Single persons without children at 67% of average earnings – Income Tax as a % of gross wage earnings	166
II.1c. Evolution of the tax burden, 2000-2010: Single persons without children at 67% of average earnings – Income tax plus employee contributions less cash benefits as a % of gross wage earnings	167
II.2a. Evolution of the tax burden, 2000-2010: Single persons without children at 100% of average earnings – Income tax plus employee and employer contributions less cash benefits as a % of labour costs	168
II.2b. Evolution of the tax burden, 2000-2010: Single persons without children at 100% of average earnings – Income Tax as a % of gross wage earnings	169
II.2c. Evolution of the tax burden, 2000-2010: Single persons without children at 100% of average earnings – Income tax plus employee contributions less cash benefits as a % of gross earnings	170
II.3a. Evolution of the tax burden, 2000-2010: Single persons without children at 167% of average earnings – Income tax plus employee and employer contributions less cash benefits as a % of labour costs	171
II.3b. Evolution of the tax burden, 2000-2010: Single persons without children at 167% of average earnings – Income Tax as a % of gross wage earnings	172
II.3c. Evolution of the tax burden, 2000-2010: Single persons without children at 167% of average earnings – Income tax plus employee contributions less cash benefits as a % of gross wage earnings	173
II.4a. Evolution of the tax burden, 2000-2010: Single parent with two children at 67% of average earnings – Income tax plus employee and employer contributions less cash benefits as a % of labour costs	174

II.4b. Evolution of the tax burden, 2000-2010: Single parent with two children at 67% of average earnings – Income Tax as a % of gross wage earnings	175
II.4c. Evolution of the tax burden, 2000-2010: Single parent with two children at 67% of average earnings – Income tax plus employee contributions less cash benefits as a % of gross wage earnings	176
II.5a. Evolution of the tax burden, 2000-2010: One-earner married couple with two children at 100% of average earnings – Income tax plus employee and employer contributions less cash benefits as a % of labour costs	177
II.5b. Evolution of the tax burden, 2000-2010: One-earner married couple with two children at 100% of average earnings – Income Tax as a % of gross wage earnings	178
II.5c. Evolution of the tax burden, 2000-2010: One-earner married couple with two children at 100% of average earnings – Income tax plus employee contributions less cash benefits as a % of gross wage earnings	179
II.6a. Evolution of the tax burden, 2000-2010: Two-earner married couple with two children, one at 100% average earnings and the other at 33% – Income tax plus employee and employer contributions less cash benefits as a % of labour costs	180
II.6b. Evolution of the tax burden, 2000-2010: Two-earner married couple with two children, one at 100% average earnings and the other at 33% – Income Tax as a % of gross wage earnings	181
II.6c. Evolution of the tax burden, 2000-2010: Two-earner married couple with two children, one at 100% average earnings and the other at 33% – Income tax plus employee contributions less cash benefits as a % of gross wage earnings	182
II.7a. Evolution of the tax burden, 2000-2010: Two-earner married couple with two children, one at 100% average earnings and the other at 67% – Income tax plus employee and employer contributions less cash benefits as a % of labour costs	183
II.7b. Evolution of the tax burden, 2000-2010: Two-earner married couple with two children, one at 100% average earnings and the other at 67% – Income Tax as a % of gross wage earnings	184
II.7c. Evolution of the tax burden, 2000-2010: Two-earner married couple with two children, one at 100% average earnings and the other at 67% – Income tax plus employee contributions less cash benefits as a % of gross wage earnings	185

II.8a. Evolution of the tax burden, 2000-2010: Two-earner married couple with no children, one at 100% average earnings and the other at 33% – Income tax plus employee and employer contributions less cash benefits as a % of labour costs.	186
II.8b. Evolution of the tax burden, 2000-2010: Two-earner married couple with no children, one at 100% average earnings and the other at 33% – Income Tax as a % of gross wage earnings	187
II.8c. Evolution of the tax burden, 2000-2010: Two-earner married couple with no children, one at 100% average earnings and the other at 33% – Income tax plus employee contributions less cash benefits as a % of gross wage earnings	188
II.9. Annual average gross wage earnings, single individual no children, 2000-2010 (US Dollars using PPP)	189
II.10. Annual average gross wage earnings, single individual no children, 2000-2010 (national currency).	190

Part IV

METHODOLOGY AND LIMITATIONS

Methodology	552
1. Introduction	552
2. Calculation of gross wage earnings	552
3. Estimating gross wage earnings in 2010	559
4. Coverage of taxes and benefits	560
5. Taxpayer characteristics	561
6. Calculation of personal income taxes	561
7. State and local income taxes	562
8. Social security contributions	563
9. Payroll taxes	563
10. Church tax	564
11. Family cash benefits from general government	564
12. Payable tax credits	565
13. The calculation of marginal tax rates	566
Limitations	567
1. General limitations	567
2. Some specific limitations on the income tax calculation	568
3. Limitations to time-series comparisons	568
