

PART C Other ICT statistics material

ICT compendium releases

If you have the information readily available, please provide references to such outputs or provide the outputs themselves as URLs or emailed as attached files.

On the Road to the Finnish Information Society, 1997, 1999, 2001, 2004,
Information Society Statistics, 2006 http://tilastokeskus.fi/tup/julkaisut/isbn_952-467-585-4_en.html

Together with other Nordic countries: Nordic Information Society Statistics 2002:
http://www.stat.fi/tk/yr/tietoyhteiskunta/nordic_iss_02.pdf

Nordic Information Society Statistics 2005:
http://tilastokeskus.fi/tup/julkaisut/isbn_92-893-1200-9_en.html

These publications include information from the surveys described in part B, but also others e.g. ICT sector statistics on employment and structural business statistics as well as ICT goods statistics on production of goods and foreign trade. National classification for ICT and media studies (based on ISCED) is available for education statistics.

Analytical and related work based on official statistics

If you have the information readily available, please provide references to such work or provide outputs as URLs or emailed as attached files.

Information about ICT statistical work (future plans, strategies, experiences etc)

If you have the information readily available, please provide descriptions of such work or provide material as URLs or emailed as attached files.

Information about ICT investments in enterprises is added on two questionnaires for 2005: a) Structural Business Statistics will produce data on monetary values and b) ICT in enterprises will produce data on own account software.

Discussions on surveying ICT in the public sector, municipalities have been started.
