

**Chairman's Summary  
Paris Plenary, 25-27 February 2009**

**27 February 2009**

The FATF Plenary has this week taken important new steps to protect the international financial system from abuse, agreeing to:

- Issue a Statement calling on its members, and urging all jurisdictions, to apply effective counter-measures to protect their financial sectors from the money laundering and terrorist financing risks emanating from **Iran**. The FATF also updated its previous Statement on the money laundering and terrorist financing risks emanating from **Uzbekistan, Turkmenistan, Pakistan and São Tomé and Príncipe**.
- Adopt an in-depth evaluation of the anti-money laundering and counter terrorist-financing system in **South Africa**.
- Publish a detailed study on the money laundering and terrorist financing vulnerabilities in the **casinos and gaming sector**.
- Analyse the impact of the **global financial and economic crisis** on efforts to combat money laundering and terrorist financing.

**International co-operation issues**

On 25 February 2009, the FATF Plenary released the following Statement:

**IRAN**

The FATF welcomes Iran's initial engagement with the international community on money laundering. However, the FATF remains concerned by Iran's failure to meaningfully address the ongoing and substantial deficiencies in its anti-money laundering and combating the financing of terrorism (AML/CFT) regime. The FATF remains particularly concerned about Iran's failure to address the risk of terrorist financing and the serious threat this poses to the integrity of the international financial system. The FATF urges Iran to immediately and meaningfully address its AML/CFT deficiencies, in particular by criminalising terrorist financing and effectively implementing suspicious transaction reporting (STR) requirements.

The FATF reaffirms its call on members and urges all jurisdictions to advise their financial institutions to give special attention to business relationships and transactions with Iran, including Iranian companies and financial institutions. In addition to enhanced scrutiny, the FATF further calls on its members and urges all jurisdictions to apply effective counter-measures to protect their financial sectors from money laundering and financing of terrorism (ML/FT) risks emanating from Iran. Jurisdictions should also protect against correspondent relationships being used to bypass or evade counter-measures and risk mitigation practices, and take into account ML/FT risks when considering requests by Iranian financial institutions to open branches and subsidiaries in their jurisdiction.

The FATF remains prepared to engage directly in assisting Iran to address its AML/CFT deficiencies, including through the FATF Secretariat.

## **UZBEKISTAN**

The FATF welcomes the process undertaken by Uzbekistan to adopt comprehensive AML/CFT measures within a specific timeframe. Nevertheless, given that concrete measures to address the identified deficiencies have not yet been implemented, the FATF reiterates its statement of 16 October 2008, calling on its members and urging all jurisdictions to strengthen preventive measures to protect their financial sectors from the ML/FT risk emanating from Uzbekistan.

## **TURKMENISTAN**

Despite a prolonged dialogue with the FATF and other international institutions, Turkmenistan has not yet made progress in adopting AML legislation. Financial institutions should remain aware that the lack of an AML/CFT regime in Turkmenistan constitutes an ML/FT vulnerability in the international financial system and should take appropriate measures to address this risk. Turkmenistan is urged to adopt without further delay a comprehensive AML/CFT regime that meets international AML/CFT standards. Turkmenistan is encouraged to continue to work closely with the Eurasian Group and the International Monetary Fund to achieve this.

## **PAKISTAN**

The FATF reaffirms its public statement of 28 February 2008 regarding the ML/FT risks posed by Pakistan. The FATF welcomes the process underway in Pakistan to improve its AML/CFT regime. The FATF encourages Pakistan to continue to fully co-operate with the World Bank and the Asia Pacific Group on Money Laundering (APG) on its mutual evaluation process.

## **SÃO TOMÉ AND PRÍNCIPE**

The FATF welcomes São Tomé and Príncipe's recent steps toward addressing identified AML deficiencies, in particular, through the adoption of an AML law in November 2008. The FATF urges São Tomé and Príncipe to address the remaining AML/CFT deficiencies, particularly relating to terrorist financing.

## **South Africa: Evaluation of anti-money laundering and counter-terrorist financing action**

The FATF discussed and adopted the mutual evaluation report of South Africa, which assesses its compliance with the international standards for combating money laundering and terrorist financing - the *40+9 Recommendations*. A summary of this comprehensive assessment will soon be on the FATF website<sup>1</sup>, and the full report will be released in the coming weeks.

## **Money laundering and terrorist financing vulnerabilities in the casinos and gaming sector**

The Asia/Pacific Group on Money Laundering and the FATF finalised a comprehensive joint report: *Money Laundering/Terrorist Financing Vulnerabilities of Gaming and Casinos Sector*. The report examines and illustrates areas of vulnerability and emerging issues in this sector with a focus on legitimate gaming operations that have a physical presence.

The report concludes that there are regional and global vulnerabilities in the casinos and gaming sector which provide opportunities for money laundering and other financial crimes to flourish. In order to assist countries and gaming operators in dealing with these issues, the report provides sector-specific money laundering and terrorist financing indicators and highlights possible policy implications for effective implementation of the FATF Standards that cover casinos and gaming.

This report will be published on the websites of both the FATF and the Asia/Pacific Group on Money Laundering<sup>2</sup> in the coming weeks.

## **The impact of the global financial and economic crisis on AML/CFT**

The FATF has agreed to a Dutch proposal to examine the impact of the global financial and economic crisis on efforts to combat money laundering and terrorist financing. Under this initiative, the FATF will take stock of the consequences of the financial and economic crisis for the FATF and identify issues for further analysis and discussion.

The FATF analysis will also look at the role AML/CFT measures have in national and global solutions to this crisis.

In addition, the FATF will continue to consider the measures which countries are taking to mitigate the impacts of the crisis as such measures should not undermine AML/CFT controls.

***Antonio Gustavo Rodrigues***  
***President, Financial Action Task Force***
