TECHNICAL SPECIFICATIONS

1. For the purpose of this Act, technical requirements, in the case of building works, shall be based on technical specifications, by which characteristic properties of the building works are specified, enabling the building works to be described in a manner, such that it fulfils the specified purpose. Technical requirements include in particular product and material characteristics in accordance with a special regulation¹, levels of environmental performance and other requirements, like accessibility for handicapped persons. They also include rules relating to design, costing, the test, inspection and acceptance conditions for building works, as well as methods and techniques of construction and all other technical conditions which will be prescribed under generally binding legal regulations or technical standards, in relation to the finished building works and to the materials or parts which they involve.
2. For the purpose of this Act, technical requirements, in the case of supplies and services, shall be based on technical specifications, by which characteristic properties of the supplies and services are specified. These technical requirements include in particular product and material characteristics in accordance with a special regulation¹.
3. For the purpose of this Act, standard shall be a technical standard in accordance with a special regulation².
4. For the purpose of this Act, European standard shall be a technical standard in accordance with a special regulation².
5. For the purpose of this Act, Slovak national standard shall be a technical standard in accordance with a special regulation².

¹ Article 2 (1) (i) of the Act No. 264/1999 Coll. on technical requirements concerning products and on conformity assessment and on amendment of certain acts, as amended by the Act No. 436/2001 Coll., as amended.
Article 3 of the Act No. 90/1998 Coll. on building products, as amended by Act No. 134/2004 Coll.

² Article 5 of the Act No. 264/1999 Coll., as amended.

6. For the purpose of this Act, European technical approval shall be a favourable technical assessment of the fitness for use of a product for a particular purpose, based on the fulfillment of the essential requirements for construction, by means of the inherent characteristics of the product and the defined conditions of its application and use, issued by a relevant legal entity.

7. For the purpose of this Act, common technical specification shall be a technical specification laid down in accordance with a procedure recognised by the Member States which has been published in the Official Journal of the European Union;

8. For the purpose of this Act, technical reference shall be any product produced by European standardisation bodies, other than European standards, adopted as a reaction to market needs.
