

Systemic Innovation in VET

Progress Update

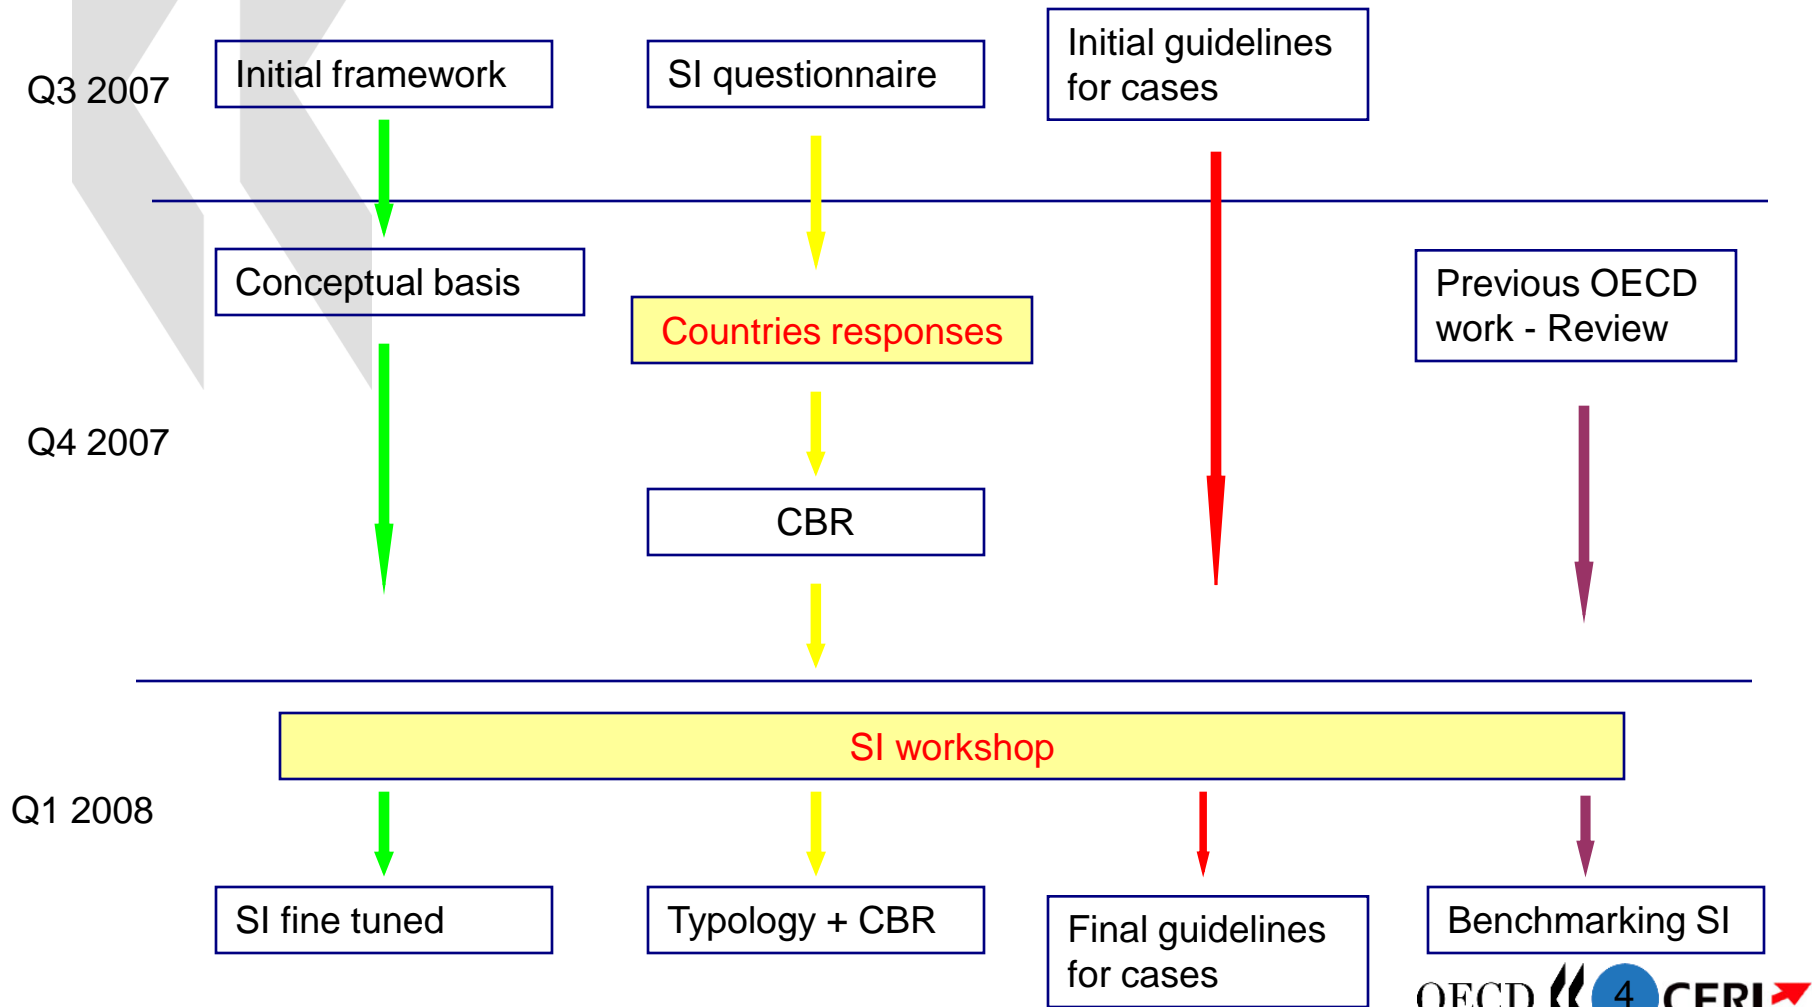

Project objectives

- Conceptualize innovation in VET
- Dynamics of innovation in VET (KM perspective):
 - Factors influencing innovation
 - A model of innovation
- Innovation strategies in VET
 - Role of evidence
 - Monitoring and evaluating innovation
 - A typology
- Benchmarking innovation in VET
 - Accounting for innovation
 - Indicators of innovation

Objectives for the analytical phase

- Improve evidence base
- Develop analytical framework and tools for further work:
 - Case studies
 - Comparative analysis

Roadmap and outputs

Next steps

- Country visits
- Future meeting:
 - Review progress made in the analytical framework
 - Summarize first country visits and cases
 - Benchmarking VET innovation meeting
