

**Report on the Test Results of  
Endocrine Disrupting Effects of Nonylphenol on Fish  
(Draft)**

August, 2001

**Environmental Health Department  
Ministry of the Environment  
Government of Japan**

## Table of Contents

1.	Background.....	1
2.	Properties, uses, production, etc. ....	2
	(1) Chemical structure, properties, etc.....	2
	(2) Uses, production, etc.....	3
3.	Releases to the environment .....	4
	(1) Releases of nonylphenol ethoxylates .....	4
	(2) Releases of nonylphenol .....	4
4.	Behavior in the environment.....	5
	(1) Model calculation on distributions in the environment.....	5
	(2) Literature information, etc. ....	5
	(3) Test and survey results on behavior in the environment .....	7
5.	Fate in the body .....	7
	(1) Literature information, etc. ....	7
	(2) Test and survey results on fate in the body .....	8
6.	Survey results on nonylphenol concentrations in the environment .....	8
	(1) Results of environmental surveys in Japan .....	8
	(2) Environmental concentrations outside Japan .....	10
7.	General toxicity .....	10
	(1) Acute toxicity.....	10
	(2) Chronic toxicity .....	11
	(3) Reproductive toxicity .....	12
8.	Literature search and reliability assessment on suspected endocrine disrupting effects on fish, etc. ....	12
	(1) Effects on fish .....	12
	(2) Effects on other aquatic organisms .....	15
9.	Screening, tests, etc. using fish .....	15
	(1) <i>In vitro</i> assays .....	15
	(2) <i>In vivo</i> studies using medaka .....	17
10.	Overseas developments in risk assessment .....	23
	(1) Canada .....	23
	(2) European Union (EU) .....	23
11.	Overall assessments .....	24
	(1) Methods of risk assessment .....	24
	(2) Assessment of nonylphenol exposure .....	24
	(3) Hazard assessment of endocrine disrupting effects of nonylphenol on fish .....	25
	(4) Other effects of nonylphenol to fish.....	27
	(5) Others (environmental fate and metabolism, internal fate and metabolism, etc.).....	27
	(6) Risk assessment of nonylphenol's effects on fish.....	27

12. Measures toward risk reduction .....	27
(1) Further improvement of accuracy in risk assessments .....	27
(2) Tackling toward risk reduction .....	28

(Appendix 1) Other alkylphenols

1. 4- <i>t</i> -Octylphenol.....	30
(1) Summary of the environmental survey results .....	30
(2) Literature search and reliability assessment results on ecological effects suspected of endocrine disrupting effects .....	30
(3) Examination of toxicity assessment on endocrine disrupting effects .....	31
2. Other alkylphenols .....	31
(1) Summary of the environmental survey results .....	31
(2) Literature search and reliability assessment results on ecological effects suspected of endocrine disrupting effects .....	31
(3) Examination of toxicity assessment on endocrine disrupting effects .....	31

(Appendix 2) Regulations, etc. in Japan and other countries

(1) Regulations in Japan .....	33
(2) Regulations in other countries .....	33
(3) Voluntary measures taken by industries .....	34
(4) The state of substitution .....	36

(Appendix 3) On the reports on effects of nonylphenol to mammals

1. Fate in the body .....	37
2. General toxicity .....	37
(1) Acute toxicity.....	37
(2) Chronic toxicity .....	37
(3) Reproductive toxicity .....	38
(4) Other toxicities.....	40
3. Literature search and reliability assessment about suspected endocrine disrupting effects, etc. on mammals .....	40
