

TICA 's role

- Focal point agency for development cooperation,
- Both providing ODA and being partner with traditional donors,

Policy : Focus - HRD

- potential of human resource as the “growth engine” of the region,
- Strongly support HRD to stimulate the capacity building,
- Ultimate goal of mutual benefit
- to bridge the development gap in the region,
- Traditional technical cooperation + trade related

Technical Cooperation

Bilateral Programme

TCDC

Partnership Programme

Trilateral Cooperation

TCTP

South – South Cooperation

Approach and Mechanism

Need – oriented

- Needs from developing countries
- Bilateral annual consultation
- International, regional, and sub-regional forum

ACMECS

GMS

APEC

IMT-GT

BIMSTEC

Committee on Technical and Economic Policy

- Chair by Minister of Ministry of Foreign Affairs
- Members comprise of 33 representatives from both government and private sectors
- 2 working groups under this committee
 - /on
 - strategic plan
 - ODA data collection

Why South – South cooperation is particularly valuable

Closer level of development

Similarity in live style and culture

Cost Effectiveness

Competent Institutions

JICA - TCTP

- Partnership Programme : Jointly assess need, design, administer monitor and evaluate with cost sharing.
- More than 10 Training Courses offered to developing countries each year in the field of Agriculture, Health, Education and others as requested.

UN Family

South – South Cooperation

- Mostly in the health and social sector aim at achieving MDGs
 - WHO
 - UNDP
 - UNFPA
 - UNICEF
 - UNESCAP
- 

Thai – French Trilateral Cooperation

- Past
 - AMFA : health personnel training
- Present
 - Ph.D. Scholarships
 - Training : CIRAD
 - Food Safety
 - Food Safety and Tradable
 - Chemical Contaminants in Food
- Cost – sharing

Thai – Singapore

South – South Cooperation

- Training Courses in :
 - Public Administration in Singapore
 - Industrial Estate in Thailand
 - IT in CLM countries.
 - English Communication in CLM countries
 - Trade Liberalization in CLM countries
- Cost – Sharing

Others

- Others partner countries with MOU signed
 - Hungary
 - Australia
 - Sweden
 - Germany
 - Luxemburg

Thai - Canadian

- Trilateral cooperation in Environment in the CLMV and Thailand
- Thai – Canadian Partnership Programme training in RBM through ITD

Effectiveness

- Based on returned questionnaires and interviews :
 - Improve Knowledge and skill
 - Applied and improved their work which benefit their organization
 - disseminate Knowledge and skill to colleagues and others through class lecture and/or meeting/seminars

What are our main challenges in delivering effective aid

- Ownership
- Clear and Quantifiable objectives
- Qualified candidates
- Low response to questionnaires survey
- Communication means
 - English language
 - Internet accessible

What would TICA like to learn from traditional OECD donors

- Learning by working together in the field of Technical cooperation : AfT
- Become partner and using training facility in Thailand to optimize your cost
 - ITD
 - MI
 - Universities
 - Line Ministries

What do TICA think you should learn from South – South cooperation models?

- How the South-South work together?
- Seeing is believing. You have to go there and work with us to see how amazing we are.

www.tica.thaigov.net

The background features a faint, stylized illustration of a Hindu deity, likely Lord Venkateswara of Tirumala, depicted with multiple arms. The deity is shown in a standing posture, wearing a tall, ornate crown and a patterned dhoti. The hands are holding various symbolic objects, including a conch shell, a mace, and a bow. The illustration is rendered in a light, monochromatic style, blending into the overall muted brown background.

THANK YOU
for your attention
