In 2004 Spanish Development Cooperation starts deep process of reforms:

- Ministry of Foreign Affairs => Ministry of Foreign Affairs and **Cooperation**
  new Directorate General for Development Policy (from 12 to 50 people)
- Spanish Agency for International **Development** Cooperation (AECI=> AECID)

**Master Plan for Development Cooperation 2005-2008:**

- Development policy beyond an instrument, is a State policy, improving participation of all development actors and working in consensus.
- **Coherence, efficiency, and results based management.**
- **Increase** Aid: **quantity** (0.22% in 2004 => 0.5% in 2008, and 0.7% in 2012) and **quality** (reforms, new instruments, x 4 multilateral work, Paris Declaration...)

Continuous and transparent driving process of accountability which means…

- To communicate what we do, why, where we are and what we want to achieve.
- In this process all development cooperation actors are communicators and all their activities can be communication opportunities
PROCESS FOR ELABORATING THE STRATEGY

- Common structure and process for the 13 strategy papers (health, governance, education, dev ed, humanitarian action, gender, peace construction, sustainable dev, …)
- Draft paper by an expert
- Participative process with actors related to dev ed (Ministry of Education, NGO, Autonomous Communities, universities, syndicates, business representatives, etc.)
- Working groups of the Spanish Dev Coop Council
PARTS OF THE STRATEGY

1. Presentation
2. Justification
3. Normative and institutional frame of reference (national and international)
4. Theoretical frame of reference
5. Plan of action
6. Difusión and communication
7. Follow up and evaluation
PRESENTATION AND JUSTIFICATION

1. To contribute to awareness raising of the corresponsability of all in eradication of poverty and in the human sustainable development

2. To be a communication platform of the Spanish development cooperation principles and its strategic sectorial and transversal priorities

3. Establish objectives and strategic lines for action as well as the ways and working areas of development education
THEORETICAL FRAMEWORK

Development education is:

“An educational process that looks out for the promotion of a global citizenship through knowledge, attitudes and values able to generate a culture of solidarity engaged with the fight against poverty and social exclusion as well as with the promotion of a human sustainable development.”

Global (interdisciplinary, global and local, links past-present-future) and integral (knowledge, values and attitudes)
| **Values and attitudes** | Feeling of global citizenship  
Equity of rights  
Global responsibility |

Social justice
Equity
Corresponsab.
Equality
Participation
Solidarity
Empowerment
Dialogue

OPERATIONAL

Ownership
Alignment
Harmonization
Accountability

PRINCIPLES
LE.1. To provide DE with mechanisms and tools to locate it as an strategic field of work (budget, principles of DE as reference framework…)

LE.2. Provide information about the economic, political, social and cultural relations as an outcome of the globalization process (def. actions on DE crosscutting and sectorial priorities)

LE.3. To promote attitudes in favour of cooperation, peace, justice, respects of human rights and solidarity between peoples

LE 4. To encourage participation, coordination and complementary processes between actors with responsibilities on Dev Ed.

LE 5. To promote investigation and evaluation of DE

LE 6. To promote formation and awareness raising processes to build a global citizenship (in dev actors, media, educators,…)
## FIGHT AGAINST HUNGER

| **Objectives** | • Access to food as a basic right of all people  
• Awareness raising on the need of public policies oriented to a right distribution and a better access to resources and services  
• Contribute to reduce to half the % of hunger people in the world. |
| **Awareness raising** | • Awareness raising campaigns on the MDG 1: “To eradicate extreme poverty and hunger”.  
• To inform about the relationship between: food sovereignty; fight against poverty; Human Rights; social, economic, agricultural and fishery development; nutrition and the environment. |
| **Formation** | • Training courses and seminars for development cooperation actors on food security and an rational use of resources.  
• Coordinating initiatives hand by hand with universities and other educational institutions that allows to introduce gradually concepts and integral visions about Food Security. |
| **Research** | • To support public research on agriculture, fishery and food promoting the use of local resources, generating and transferring of know how aimed at regional the needs and at the needs of the most vulnerable populations. |
| **Political incidence and mobilization** | • To promote political compromises aiming at hunger eradication in the world.  
• To provide knowledge and access to information to local population with the purpose of integrating them in the decision making process related to the right to food |
**DIFFUSION AND COMMUNICATION**

National level to development actors related to DE (CCAA, OOCC, ONGD, EELL, AECID, universities…)

International level: OOII (CAD, UE, etc.), partner countries

Publication on paper the Strategy and an executive summary
