

## CONTENTS

I.	INTRODUCTION AND SUMMARY . . . . .	11
II.	SIZE AND SCOPE OF PUBLIC SECTOR ACTIVITY . . . . .	27
A.	General government budgetary activity: National trends and international differences . . . . .	28
1.	Aggregate trends in general government transactions . . . . .	28
2.	Trends in the structure of general government activity . . . . .	40
3.	Selected aspects of general government activity . . . . .	56
B.	Public sector off-budget activity . . . . .	74
1.	Public enterprises . . . . .	75
2.	Tax expenditures . . . . .	79
3.	Government lending and loan guarantees . . . . .	83
4.	Regulation . . . . .	85
III.	DETERMINANTS OF PUBLIC SECTOR GROWTH . . . . .	91
A.	General arguments . . . . .	91
B.	Determinants of growth in specific types of general government expenditure . . . . .	95
1.	Public goods . . . . .	95
2.	Merit goods . . . . .	97
3.	Income maintenance expenditure . . . . .	101
C.	Reasons for the expansion of off-budget activities . . . . .	111
D.	Identifiable causes of international differences in the relative size of government expenditure . . . . .	114
IV.	PROGRAMME OBJECTIVES, ACHIEVEMENTS AND ADVERSE CONSEQUENCES . . . . .	121
A.	Education . . . . .	123
1.	Education and economic growth . . . . .	124
2.	Education and equality . . . . .	128
3.	Education and legitimacy . . . . .	129
B.	Health care . . . . .	130
1.	Standards of health . . . . .	131
2.	Access and redistribution . . . . .	136
C.	Income maintenance . . . . .	139
1.	Old-age pensions . . . . .	139
2.	Unemployment compensation . . . . .	146
3.	Sickness benefits and family allocations . . . . .	152
D.	Regulation . . . . .	153
V.	TAXATION, DISINCENTIVES AND DISTORTIONS . . . . .	160
A.	Taxation and labour supply . . . . .	162

1. Empirical evidence . . . . .	164
2. The poverty trap . . . . .	167
B. Taxation, labour demand and employment . . . . .	170
C. Taxation and savings . . . . .	177
D. Taxation and capital formation . . . . .	182
VI. BUDGET DEFICITS AND CROWDING-OUT . . . . .	189
VII. THE REDISTRIBUTIVE IMPACT OF GOVERNMENT . . . . .	203
A. The methodology of net fiscal incidence studies . . . . .	205
B. Empirical results . . . . .	207
BIBLIOGRAPHY . . . . .	230

#### LIST OF TABLES

1. General government expenditure, revenue and net lending relative to GDP at current prices . . . . .	29
2. Trends in general government net lending . . . . .	36
3. General government expenditure and revenue elasticities . . . . .	39
4. Ratio of general government functional expenditure components to GDP . . . . .	47
5. Elasticities of functional expenditure components . . . . .	48
6. Ratio of tax revenue components to GDP . . . . .	49
7. Elasticities of tax revenue components . . . . .	50
8. The structure of general government expenditure in 1970 . . . . .	51
9. The structure of general government expenditure in 1981 . . . . .	52
10. Increase in the price deflators for private and general government consumption expenditure . . . . .	58
11. General government share in final consumption . . . . .	59
12. General government share in gross fixed investment . . . . .	62
13. General government share in employment . . . . .	63
14. Average annual growth rates of employment . . . . .	64
15. Government contributions to household incomes . . . . .	66
16. Government deductions from household incomes . . . . .	67
17. Subsidies and indirect taxes . . . . .	69
18. General government saving and net lending . . . . .	71
19. General government interest payments . . . . .	72
20. Gross capital formation of public enterprises . . . . .	77
21. Public enterprise share in employment . . . . .	78
22. Public enterprise net borrowing as a percentage of gross national savings . . . . .	78
23. Tax expenditures in Austria . . . . .	81
24. Tax expenditures in Germany . . . . .	81
25. Outlay equivalent tax expenditure estimates for the United States . . . . .	81
26. Tax expenditures in selected countries . . . . .	82
27. Direct transfers and tax expenditures in selected areas of income maintenance . . . . .	82
28. Relative size of federal regulatory expenditures . . . . .	86
29. Percentage of United States GNP in the regulated sector of the economy . . . . .	87
30. Movements in the input price deflators for final consumption expenditure on public goods and GDP . . . . .	96
31. Movements in the input price deflators for merit goods and GDP . . . . .	97
32. Decomposition of the growth rate of real education expenditure . . . . .	99
33. Decomposition of the growth rate of real health expenditure . . . . .	100
34. Decomposition of changes in the ratio of pensions expenditure to GDP . . . . .	104
35. Decomposition of changes in the ratio of unemployment compensation expenditure to GDP . . . . .	107
36. Major factors underlying changes in the ratio of unemployment compensation expenditure to GDP between 1970 and 1981 . . . . .	108

37.	Decomposition of changes in the ratio of family allowances to GDP . . . . .	110
38.	Regression estimates of determinants of the share of general government expenditure in GDP . . . . .	116
39.	Macroeconomic performance indicators . . . . .	123
40.	Estimates of rates of return to education . . . . .	125
41.	The incomes of men with four years of college compared with the incomes of men with four years of high school: United States 1968-1977 . . . . .	126
42.	Education in growth accounting . . . . .	127
43A.	Life expectancy at birth of OECD populations by sex, 1960-1980 . . . . .	132
43B.	Life expectancy at age 60 of OECD populations by sex, 1960-1980 . . . . .	133
44.	Infant and perinatal mortality in OECD countries, 1960-1982 . . . . .	134
45.	Per capita use of inpatient care in OECD countries, 1960-1982 . . . . .	135
46.	Trends in number of hospital beds per thousand capita in OECD countries, 1960-1982 . . . . .	136
47.	Trends in number of doctors per thousand capita in OECD countries, 1960-1982 . . . . .	137
48.	The redistributive impact of public expenditure on health in the United States (1970) and the United Kingdom (1971) . . . . .	138
49.	Labour force participation rates of older workers . . . . .	141
50.	Sickness absence and sickness benefits expenditure . . . . .	152
51.	Labour force participation rates of younger and prime-aged workers . . . . .	163
52.	The distribution of taxpayers over the income tax schedule . . . . .	167
53.	Proportion of income paid in income tax and social security contributions: two child family . . . . .	170
54.	General government tax and social security burdens and private sector employment growth . . . . .	174
55.	Non-wage labour costs relative to compensation of employees, total economy . . . . .	176
56.	Gross savings rates and overall tax burdens in OECD countries . . . . .	178
57.	The degree of fiscal privilege for basic rate taxpayers in the United Kingdom . . . . .	181
58.	Tax rates on new depreciable assets in selected industries in the United States, 1982 . . . . .	185
59.	Effective marginal tax rates in 1980 with 10 per cent inflation and 10 per cent real rate of return on investments by the type of asset, industry, source of finance and owner group . . . . .	186
60.	General government structural budget trends . . . . .	194
61.	Simulated effects of a real government expenditure shock of one per cent of GDP . . . . .	196
62.	The distribution of taxes and public expenditures in the United Kingdom, 1971 . . . . .	209
63.	The effects of taxes and benefits on income distribution in the United Kingdom, 1981 . . . . .	210
64.	The distribution of taxes and public expenditures in the United States, 1970 . . . . .	212
65.	The distributive impact of government taxes, transfers and expenditure benefits in the United Kingdom and the United States . . . . .	213
66.	The distribution of taxes and public expenditure in Canada, 1970 . . . . .	214
67.	The distribution of taxes and public expenditures for married couples in Sweden, 1970 . . . . .	216
68.	The redistributive impact of monetary transfers and direct taxes in Germany, 1981 . . . . .	219
69.	The redistributive impact of monetary and non-monetary transfers in Germany, 1975 . . . . .	219
70.	The effects of taxes and benefits on household income distribution in Ireland, 1973 . . . . .	220
71.	The redistributive impact of public levies and transfers in France, 1970 . . . . .	222
72.	Income redistribution between employee households in Denmark, 1971 . . . . .	223
73.	Percentage distribution of transfers, taxes and social benefits in Finland, 1971 . . . . .	224
74.	The redistributive effect of the social security system in Japan . . . . .	225
75.	Redistributive effects of direct taxes in Japan, 1976 . . . . .	225
76.	The incidence of the Australian taxation system, 1975-76 . . . . .	227

#### LIST OF CHARTS

1.	Ratio of general government expenditure and revenue to GDP . . . . .	30
2.	Trends in general government expenditure and revenue shares of GDP . . . . .	32
3.	Elasticity of general government total expenditure . . . . .	37
4.	Elasticity of general government total revenue . . . . .	38
5.	Ratios of general government expenditure categories to GDP . . . . .	41

6.	Ratios of general government revenue categories to GDP . . . . .	44
7.	The structure of general government expenditure . . . . .	53
8.	Size and increase in general government share in final consumption (current prices) . . .	60
9.	General government gross debt to GDP ratios . . . . .	73
10.	Unemployment and replacement rates . . . . .	150
11.	Change in unemployment and replacement rates . . . . .	151
12.	Employment growth in the private sector and social security contributions, 1960-1982 .	175
13.	Total government sector incidence for Canada in 1970, expressed as a percentage of initial income . . . . .	215
