Key messages

Stronger, more inclusive and sustainable growth

• A clear multi-year reform programme to boost employment and productivity, while reducing steadily the public debt ratio

Tackling large social and regional divides

• Strengthen work incentives through tax and social benefit reforms and improving public employment services

Better public investment and regional development policies

• Local administration needs strengthening and rationalising with better support and coordination from the central government
Italy performs well in health, social connections and work-life balance

OECD Better Life Index
Rankings from 1 (highest) to 35 (lowest), 2017

1. Components do not sum to overall effect due to interactions between individual reforms.

**Source:** OECD calculations
A larger primary surplus and the reform package would put debt on a downward path

Public debt, % of GDP

- **2019 policies, OECD projections, 2% primary surplus**
- **Recommended reform package + primary surplus at 2% of GDP**
- **Recommended reform package + lower interest rates (spread declines to 100) + higher primary surplus (3.3% of GDP)**

- Set out a medium-term fiscal plan within the EU Growth and Stability Pact, aiming to steadily raise the primary surplus.
- Reverse the changes in early retirement rules introduced in 2019.

*Source: OECD calculations.*
Few payments are done electronically, abetting tax evasion and supporting informality

Non-cash payments, % of GDP, 2017

- Lower the maximum threshold for cash payments. Continue to improve voluntary tax compliance and avoid repeated tax amnesties.
- Continue to improve coordination across tax administration agencies.

Source: ECB.
Removing obstacles hindering the growth of small, productive firms would boost productivity

Labour productivity, 2016 or latest available

- Continue to pursue reforms to boost productivity including measures to improve the efficiency of the judicial system through improvements in administration processes and greater use of alternative dispute resolution.
- Complete the reform of the insolvency regime.

**Note:** Labour productivity is computed as value added per person employed, thousands of USD, current PPPs.

Ensuring all regions have effective waste management can lift well-being

Waste management by region, % of total waste collection

- **Recycling waste collection**
- **Non recycled waste collection**

- Restructure operations relating to waste management of sub-national governments that repeatedly fail to reach targets for waste collection and recycling.

*Source: ISPRA.*
Main recommendations
A multi-year reform programme to enhance growth and well-being while boosting fiscal credibility

- Develop a multi-year programme of institutional, economic and social reforms and do not reverse important measures taken in recent years.
- Boost fiscal credibility by setting out a medium-term fiscal plan within the EU Growth and Stability Pact, aiming to steadily raise the primary surplus.
- Continue to pursue reforms to boost productivity including measures to improve the efficiency of the judicial system through improvements in administration processes and greater use of alternative dispute resolution.
- Reverse the changes in early retirement rules introduced in 2019 and preserve the link between retirement age and life expectancy.
- Abolish tax expenditures that are poorly targeted or have outdated objectives.
- Restructure operations relating to waste management of sub-national governments that repeatedly fail to reach targets for waste collection and recycling.

Provide more quality infant care places at a low cost relative to average wages, prioritising regions with low female employment.

Source: ISTAT (2017) and OECD calculations
Strengthening public employment services is key to job creation

% of employees who found a job through public employment services*

- Implement a multi-year plan to revamp public employment services based on enforcing essential service standards and higher investments in IT systems, profiling tools and human resources.
- Grant to ANPAL the power to restructure public employment services that repeatedly fail to meet commonly agreed performance targets.

* Employees aged 25-64 who started a job during the previous 12 months, 2014 data.

Source: OECD calculations based on EU-LFS 2014.
Social services are weak where they are most needed

Ensure capacity to administer the Citizen’s Income by building on and strengthening, where necessary, municipalities’ social assistance services and establishing strong collaboration with public employment services.

Source: ISTAT; Eurostat; OpenCivitas; and OECD calculations.
Main recommendations

Addressing Italy’s social and regional disparities

- Implement a multi-year plan to revamp public employment services based on enforcing essential service standards and higher investments in IT systems, profiling tools and human resources.

- Grant to ANPAL the power to restructure public employment services that repeatedly fail to meet commonly agreed performance targets.

- Ensure capacity to administer the Citizen’s Income by building on and strengthening, where necessary, municipalities’ social assistance services and establishing strong collaboration with public employment services.

- Provide more quality infant care places at a low cost relative to average wages, prioritising regions with low female employment.

- Reduce the labour income tax wedge on low-income workers and second earners through lowering employer social security contributions and tax and benefit reforms, while maintaining the tax system’s progressivity.

- Taper Citizen’s Income benefits to encourage beneficiaries to seek employment in the formal sector and introduce an in-work benefit for low-income earners.

Improving public investment and regional development policies
Public investment has slumped

Simplify the most complex aspects of the public procurement code, but protect the powers of the anticorruption authority.

Source: OECD Economic Outlook 104 database, including more recent information; and OECD National Accounts database.
Perceived infrastructure quality is lagging

Develop a comprehensive public investment and spatial plan linking infrastructure developments with land use management.

Investment by subnational governments is falling

Public investment, EUR billions

Create as planned a technical support unit for public investment using existing administrative structures and ensure it is well staffed.

Source: OECD General Government Accounts database.
Absorption of EU funds is low, especially in the south

Rationalise and improve coordination among bodies involved in regional development policies by strengthening the role and expertise of central government bodies.

Spending of EU funds 2014-2020 programming period, at end September 2018, % of planned investments
Metropolitan areas’ administration is somewhat fragmented, weighing on efficiency

Empower metropolitan governance bodies with the transfer of some of the powers of regions and provinces.

Source: OECD Metropolitan Areas database; and OECD Regional Statistics database.
Main recommendations

Improving public investment and regional development policies

- Create as planned a technical support unit for public investment using existing administrative structures and ensure it is well staffed.

- Simplify the most complex aspects of the public procurement code, but protect the powers of the anticorruption authority.

- Develop a comprehensive public investment and spatial plan linking infrastructure developments with land use management.

- Rationalise and improve coordination among bodies involved in regional development policies by strengthening the role and expertise of central government bodies.

- Empower metropolitan governance bodies with the transfer of some of the powers of regions and provinces.
