

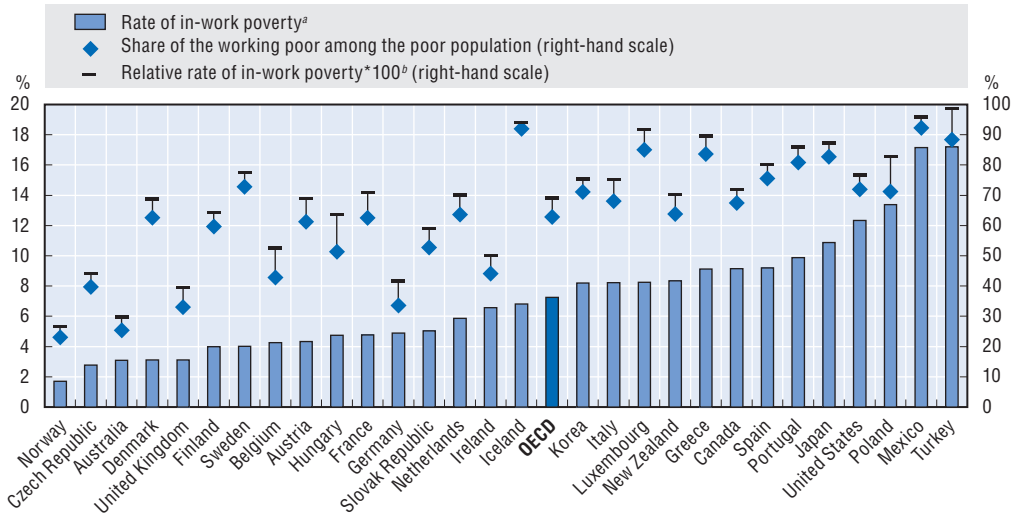

Figure 3.5. In-work poverty in OECD countries

Panel A. In-work poverty rates and shares of working poor among all individuals living in households with a head of working age
Mid-2000s

Panel B. Average annual changes in rates of in-work poverty and in shares of working poor among the poor population of working age
Mid-1990s to mid-2000s^c

- a) Percentage of individuals living in households with disposable income below 50% of the median income, among all individuals living in a given type of household with a head of working age and at least one worker.
- b) Rate of in-work poverty divided by the overall poverty rate in households with a head of working age (multiplied by 100).
- c) Data refer to changes from the mid-1990s to around 2000 for Austria, Belgium, the Czech Republic, Portugal and Spain.
