Aid for water trends?

Updating OECD and WWC work

- Total flows (% ODA, per capita)
- Main donors and recipients
- Subsectors (large vs basic)

Adding qualitative analysis (survey-based) to explore:

- Aid modalities
- Cities/towns/rural
- Resource pooling by donors
- Other topics?
 - Hygiene
 - NGOs
 - non-DAC donors

Issues for discussion

1. Focus and structure of the synthesis report
2. Topics missing / not priority
3. Aid for water trends (survey)
4. Interest in contributing to specific chapters (source materials, drafting, reviewing)
