

Tracking public and private climate finance

Towards improved data and increased transparency

Side event at UNFCCC COP20, Lima

Thursday 4 December, 13:00-15:00

EU Pavilion, COP20 conference centre

With the objective to outline recent initiatives and collaborations in tracking public and private climate finance, this event will include presentations and updates from the OECD Development Assistance Committee, the OECD-led Research Collaborative on Tracking Private Climate Finance, international finance institutions, country delegates and non-governmental representatives.

Speakers and panellists will reflect on implications for the UNFCCC in relation to:

- Recent achievements and developments in methods and data for tracking climate finance
- What is needed to support a robust MRV system for climate finance?
- What can be achieved ahead of and contribute towards Paris 2015?

Programme

Setting the scene on tracking public and private climate finance	<i>Stephanie Ockenden, OECD DAC</i> <i>Raphaël Jachnik, Research Collaborative</i>
Latest developments from the Joint-MDB reporting initiative	<i>Christopher Knowles, European Investment Bank</i>
Latest developments from development finance institutions: KfW's experience	<i>Katrin Enting, KfW Development Bank</i>
Tracking climate finance in Indonesia	<i>Representative from the Ministry of Finance of Indonesia (tbc)</i>
Perspectives from Switzerland	<i>Gabriela Blatter, Swiss Federal Office for the Environment</i>
Perspectives from WRI	<i>Aman Srivastava, World Resources Institute</i>

Followed by questions from the floor and discussion

The event will be chaired and facilitated by *Amal-Lee Amin, E3G*

Light food and refreshments will be provided
