

OECD Roundtable on 'Scaling up climate investment through National Development Banks (NDBs), Multilateral Development Banks (MDBs), and Development Finance Institutions (DFIs)'

Saturday 5 November 2016, 17:00 – 18:15,
Hyatt Regency, Casablanca, Morocco

Roundtable discussion organised in the context of the OECD project on *Growth, Investment and the Low-carbon Transition: Constructing a Climate-resilient Future for the G20*.

ROUNDTABLE OVERVIEW

This invitation-only round table meeting is being organised by the OECD in synergy with the [IDFC Climate Finance Forum](#) and the [Climate Finance Day](#). This meeting will discuss the role of public financial institutions, including multilateral development banks (MDBs), development finance institutions (DFIs) and national development banks (NDBs), in scaling up financing for green infrastructure, with a view to developing recommendations for G20 governments.

The main question to be answered through this meeting is "**What can G20 countries do to strengthen MDBs, NDBs and DFIs in deploying more, and more effective, climate finance?**" Discussions will be used to develop recommendations for a major new OECD study on *Growth, Investment and the Low-carbon Transition: Constructing a Climate-resilient Future for the G20*.

A background document to support the discussion is available.

EVENT FORMAT

The discussion will be moderated by Haje Schutte, Head of Division, Statistics and Development Finance, OECD Development Co-operation Directorate, and will be held under the Chatham House rule.

The structure of the session will be as follows:

- Introductions
- Overview of new OECD study and research on NDBs, MDBs and DFIs
- Discussion on potential areas for recommendations (see background document)
- Way forward and next steps
