## *Final EU4Environment work plan for 2019-2022: BELARUS*

This document is prepared for the second Regional Assembly meeting, to be held in a virtual format on 22 September 2020, to reflect the discussion during the country consultations with Belarus (25 June 2020), in regard to the implementation of the current work plan.

The Tables 1-4 present, in a consolidated manner, the final plan of work in Belarus for Results 1-3 and 5 as part of the European Union for Environment Action (EU4Environment), as it was agreed in September 2019 – *subject to Programme registration*. It was prepared based on the discussions at the National information meeting in Belarus (9 April 2019, Minsk), the Inaugural EU4Environment Regional Assembly meeting (27-28 June 2019, Brussels) and takes into account the final comments received by 6 September 2019.

Annex 1 to the work plan presents key outcomes of the discussion during the country consultations with Belarus (25 June 2020), in regard to the implementation of the current work plan and proposals, if any, to adjust it. The Implementing Partners agreed to follow up bilaterally on the respective activities.

Given still highly uncertain situation with covid-19 pandemic, the current work plan, in particular its timeline, may be revised towards end 2020 – beginning 2021.

*Action required:* For information.

## Introduction

This document is the final country-specific **Plan of Work in Belarus for 2019-2022** of the European Union for Environment programme (EU4Environment), as it was agreed in September 2019.<sup>1</sup> It consolidates the activities identified for implementation in Belarus with respect to the proposals specified in the Description of the Action (DoA) for **Results 1-3 and 5**. The regional activities, involving Belarus, are covered separately by the regional work plan.

The document does not include the work plan for **Result 4**, led by the World Bank, due to administrative procedures around the signatory contract between the European Commission and the World Bank, which made it difficult to conduct all the necessary country consultations and preparatory technical work. The work plan for Result 4 will be added after the completion of the contractual procedure.

It builds on initial commitments discussed at the EU4Environment national information meeting (9 April 2019, Minsk) and the follow-up consultations, including mapping exercise, and discussions at the EaP Panel on Environment and Climate Change (27 May 2019, Vienna) and at the EU4Environment Inaugural Regional Assembly meeting (27-28 June 2019, Brussels). It also takes into account the final comments received by 6 September 2019.

It accommodates, to the extent possible, the country requests taking into account feasibility and the resources available.

Table 1 below maps all activities agreed for implementation in Belarus. Tables 2-4 present more detailed planning under each Result, expected output targets and indicative timeline for the 2019-20 implementing period. A detailed description of each activity is available from the DoA. This work plan is kept flexible, to adjust, if necessary, in the course of implementation the timeline and activities, in case of any issues beyond Partners control.

The Annex 1, added to this document, presents the key outcomes of the discussion during the country consultations with Belarus (25 June 2020), in regard to the implementation of the current work plan and proposals, if any, to adjust it.

Given the unprecedented challenge brought in 2020 by the covid-19 pandemic, and still highly uncertain situation, the current work plan, in particular its timeline, may be revised towards end 2020 – beginning 2021.

## About EU4Environment

The **general objective of EU4Environment** is to help the partner countries preserve their natural capital and increase people's environmental well-being by supporting environment-related action, demonstrating and unlocking opportunities for greener growth, and setting mechanisms to better manage environmental risks and impacts.

The EU4Environment programme is structured around **five Results**:

- **Result 1.** Greener decision-making (implemented by UNEP and UNECE, with coordination by UNIDO);

---

<sup>1</sup> Its implementation is subject to EU4Environment Programme registration.

- **Result 2.** Circular economy and new growth opportunities (implemented by UNEP and UNIDO, with coordination by UNIDO);
- **Result 3.** An environmental level playing field (implemented by OECD);
- **Result 4.** Ecosystem services and livelihoods (implemented by the World Bank);
- **Result 5.** Knowledge sharing and coordination (implemented by OECD, with input from all implementing Partners).

The total EU4Environment budget for four years (2019-2022) is about EUR 20 million, of which EUR 19 million were provided by the European Union.

The Programme implementation started in January 2019. During the first half of 2019, so called “mobilisation and inception phase”, the Partners formalized and operationalized Programme implementation in all six countries and started selected activities.

### National Focal Points in Belarus

To support the Programme implementation, the Ministries of Environment and of Economic Development and Investments were invited to appoint **National Focal Points** (NFPs) of the EU4Environment. The NFPs aims to serve the coordination role and represent their respective countries during and between the annual Regional Assembly meetings.

Ministry of Natural Resources and  
Environmental Protection

Ministry of Economy

**Alexander KORBUT**

Deputy Minister

**Table 1. Mapping of selected activities in Belarus for Results 1-3 and 5.**

| Activities   | Belarus |
|--|---------|
| <b>RESULT 1. Greener decision-making</b>   |         |
| <b>1.1: Green economy ownership, policy coherence and cross-sectorial coordination (UNEP)</b>  |         |
| Activity 1.1.1: Survey and large-scale training of public sector employees                     | V       |
| Activity 1.1.2: Fitness tests of relevant policy documents and policy proposals                | V       |
| Activity 1.1.3: Facilitation of National Policy Dialogues on Green Economy                     | V       |
| <b>1.2: Sectoral investment planning and comparative analysis of costs and benefits (UNEP)</b> |         |
| Activity 1.2.1: Investment needs assessment in priority sectors                                | X       |
| Activity 1.2.2: Development of investment strategy proposals or action plans                   | X       |
| <b>1.3: Strategic Environmental Assessment and Environmental Impact Assessment (UNECE)</b>     |         |
| Activity 1.3.1: Assistance for finalizing the legal reforms on SEA and on transboundary EIA    | V       |
| Activity 1.3.2: Comprehensive capacity and institutional building                              | V       |
| <b>1.4: Awareness, education and public acceptance of the Green Economy transition (UNEP)</b>  |         |
| Activity 1.4.1: Implementation of educational courses  | V       |
| Activity 1.4.2: Awareness raising campaigns for general public                                 | X       |
| <b>RESULT 2. Circular economy and new growth opportunities</b>                                 |         |
| <b>2.1: Resource Efficient and Cleaner Production and eco-innovation among SMEs (UNIDO)</b>    |         |
| Activity 2.1.1: Eco-industrial parks feasibility   | V       |
| Activity 2.1.2: Supporting RECP Clubs  | V       |
| Activity 2.1.3: Promoting Circular Economy – Waste mapping in municipalities                   | O       |
| Activity 2.1.4: Training national experts  | V       |
| Activity 2.1.5: Additional RECP Assessments  | V       |
| Activity 2.1.6: Raising awareness and sharing knowledge  | V       |
| Activity 2.1.7: Further institutionalising RECP  | X       |
| <b>2.2: Concept and tools of the EU Single Market for Green Products initiative (UNIDO)</b>    |         |

|  |   |
|--|---|
| Activity 2.2.1: Mapping of existing practices and barriers for existing labelling schemes  | X |
| Activity 2.2.2: Awareness and understanding of SMPG opportunities and benefits   | V |
| Activity 2.2.3: Piloting product environmental footprint (PEF) in selected industries  | V |
| <b>2.3: Green Public Procurement and complementary tools (UNEP)</b>  |   |
| Activity 2.3.1: Assessments/advisory services to establish SPP and eco-labelling policies  | O |
| Activity 2.3.2: Capacity development of business sectors to respond to public tenders/eco-labelling                                      | X |
| <b>2.4: Use of strategic approaches on waste management (UNEP)</b>   |   |
| Activity 2.4.1: Developing draft action plan for waste management (national or municipal level)  | X |
| Activity 2.4.2: Initiating/assisting the establishment of Extended Producers Responsibility schemes                                      | V |
| <b>2.5: Reforms in priority green economy sectors (UNEP)</b>   |   |
| Activity 2.5.1: Identify priority sectors for policy reform, suitable policy instruments and support needs                               | V |
| Activity 2.5.2: Support introduction/adjustment of enabling policies and policy tools in priority sectors                                | V |
| <b>2.6: Ecological value-chain and product innovation (UNEP)</b>   |   |
| Activity 2.6.1: National trainings on sustainable production/eco-innovation for companies and governments                                | V |
| Activity 2.6.2: Market assessment and policy analysis of eco-innovation potential in selected sectors                                    | X |
| Activity 2.6.3: Assess SMEs/companies' potential for eco-innovation & provide advisory services for business strategy review/development | X |
| Activity 2.6.4: Awareness raising activity among business sector and government  | X |
| <b>RESULT 3. An environmental level playing field</b>  |   |
| <b>3.1: "Smart" regulation of environmental impacts (OECD)</b>   |   |
| Activity 3.1.1: Reforming regulatory regimes for large emission sources, including State Owned Enterprises                               | V |
| Activity 3.1.2: Greening Small and Medium Sized Enterprises (SMEs)   | V |
| <b>3.2: Environmental compliance assurance and environmental liability regimes (OECD)</b>  |   |
| Activity 3.2.1: Strengthening of Compliance Assurance Systems, Instruments, and Tools  | V |
| Activity 3.2.2: Reform of high impact enforcement and compliance promotion instruments, including environmental liability                | V |
| Activity 3.2.3: Networking and capacity building   | X |
| <b>3.3: Domestic public finance, subsidy reforms, public-private partnerships and private finance for green investment (OECD)</b>        |   |
| Activity 3.3.1: Greening public expenditure  | O |

|   |   |
|---|---|
| Activity 3.3.2: Review of selected national funding entities  | O |
| Activity 3.3.3: Reforming energy subsidies  | O |
| Activity 3.3.4: National and regional policy dialogues on green finance and investment                  | V |
| <b>3.4 Administrative capacity for environmental management (OECD)</b>                                  |   |
| Activity 3.4.1: Assessment of existing and required administrative capacity in the environmental sector | V |
| Activity 3.4.2: Provision of Expert Support to the Ministries of Environment and or Economy             | V |
| <b>RESULT 5. Regional knowledge sharing and coordination</b>  |   |
| Activity 5.3: Monitoring of progress at the economy-environment nexus                                   | V |

Notes: V – selected; O – for possible implementation at a later stage – subject to funds availability and discussion with the country; X – not selected.

| – Preparation /update of country profiles using indicators                                       |           |    | country profile |      |    | country profile |    | 2 country profiles                   | 4 profiles (1 per year) | <i>Country need:</i> 1) Support to the preparation and annual update of brief country profiles using headline indicators and mentioning progress with policy reform; 2) Support to the development of reports based on Green Growth Indicators that will serve to promote policy debates on green growth and enable progress evaluation, peer review and benchmarking mechanism; 3) Support for dissemination of collected information, including through international databases; 4) Development of policy briefs and organising policy debates around key messages derived from the analysis of Green Growth Indicators.<br><br>Preparatory work may already start in 2019-20 (in link to preparation of a regional mid-term report), but in-depth analysis is envisaged in the second phase of the programme. |
| – Preparation of GGI report  |           |    |                 |      |    |                 |    | Preparatory work, mission and report | 1 report                |  |
| – Development of a policy brief, organising policy debates around key messages from GGI analysis |           |    |                 |      |    |                 |    | Policy brief                         | 1 policy brief          |  |

\* Note: The country-specific needs, if any, identified in this Table will be accommodated, to the extent possible, taking into account feasibility and the resources available; subject to further discussion and confirmation.

**Annex 1. Key outcomes of the discussion during the EU4Environment country consultations with Belarus (25 June 2020) in regard to the current work plan implementation and proposals, if any, to adjust the work plan**

*The Implementing Partners agreed to follow up bilaterally on the respective activities. All proposals will be considered by the Partners and incorporated to the extent possible, subject to resource availability and additional bilateral discussions. The current work plan, in particular its timeline and activities, if applicable, may be revised towards end 2020 – beginning 2021.*

- Continue to implement the activities as envisaged in the Work Plan and in line with the agreed timeline, using alternative modes of operation (virtual communications/meetings and engaging local consultants);
- Follow up on bilateral basis on individual activities, in particular:
  - OECD– on green budget and green investments.
- See for further details the Summary Record of the meeting.
