

Financial Data Availability in the United States

Mark Reger

Deputy Assistant Secretary – Accounting Policy
U.S. Department of the Treasury

OECD Accruals Conference
March 7-8, 2013

The Federal Data Challenge

Key Issue:

Availability vs. Reliability

ADVANTAGES

- Meet greater demand for real-time data
- Capacity to customize

DISADVANTAGES

- Disparate Data sources
- Limited resources for audit
- Reconciliation issues

Financial Data Availability in the U.S.
