Donal
O'Riain

Founder and Managing Director
Ecocem Minerals Limited, Ireland

Donal O'Riain is the founder and managing director of Ecocem Materials Limited. He is graduated from Engineering in University College Dublin and completed an MBA in Trinity before becoming a management consultant for KPMG. In 2000, Donal O'Riain created Ecocem and built it into the European market leader in the production of low carbon cements based on GGBS (Ground Granulated Blastfurnace Slag) technology. Ecocem currently has a production capacity of 2.4 Mt and 115 employees in four plants, two of which are operated as part of a JV with ArcelorMittal.
